Subject: Recycling Fund Restoration Act (AB-316/SB-209)

Becky,

It was our original intention that the funding for this bill come from additional GPR, rather than the existing Seg Fund. A fiscal estimate recently released indicates the funds come from Seg. I apologize for not being more clear in writing the drafting instructions about this.

Is it more appropriate to request an amendment or a sub at this point?

Craig,

I will be the drafter for the recycling assistance draft.

Robin,

During the Assembly floor debate on the biennial budget, Democrats introduced a package amendment (attached). Representative Pocan would like to have the portion of that amendment that pertains specifically to improving the Clean Water Fund drafted as stand-alone legislation.

In addition to that, he would also like the portion that pertains to the recycling assistance program for local municipalities also drafted as stand-alone legislation.
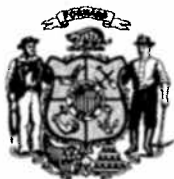

Are you the appropriate drafter to whom I should send these requests?

Sincerely,

Craig Trost

Regen

1   AN ACT *to create* 20.370 (6) (ba) of the statutes; **relating to:** financial assistance

Analysis by the Legislative Reference Bureau

Current law requires a municipality to operate a recycling program to manage solid waste in compliance with certain criteria, except that a county may assume this responsibility in place of municipalities within the county. The Department of Natural Resources administers a program that provides financial assistance to local governments that operate recycling programs that satisfy the criteria specified in current law. The program is currently funded from the environmental fund.

This bill adds funding from the general fund for local recycling programs in the amount of $13,000,000 in each fiscal year of the current fiscal biennium.
