2 **renumber and amend** 287.07 (4m) (b) (intro.) and 1.; and **to create** 287.07
3 (4m) (bm) of the statutes; **relating to:** the disposal of oil absorbent materials.

Analysis by the Legislative Reference Bureau

Current law prohibits the disposal of certain materials in solid waste disposal facilities, such as landfills. The law prohibits the disposal of oil absorbent materials that contain waste oil in a solid waste disposal facility, except that the prohibition does not apply to the disposal of less than one gallon of oil absorbent materials that contain waste oil resulting from a nonroutine spill.

This bill replaces the general prohibition on disposing of oil absorbent materials that contain waste oil in a solid waste disposal facility with a narrower prohibition. Under this bill, a person may not dispose of oil absorbent materials that contain waste oil in a solid waste disposal facility unless oil has been drained from the materials and the materials are not hazardous waste.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

4 **SECTION 1.** 287.07 (4m) (b) (intro.) and 1. of the statutes are consolidated,
5 renumbered 287.07 (4m) (b) and amended to read:
