***Analysis by the Legislative Reference Bureau******Badger Health Benefit Authority***

This bill creates the Badger Health Benefit Authority (authority) that is a public body corporate and politic that is created by state law but that is not a state agency. The authority is governed by a board of directors consisting of the commissioner of insurance (commissioner), the secretary of employee trust funds, the director of the state Medical Assistance program, the executive director of the Health Insurance Risk-Sharing Plan Authority, and the following members who are nominated by the governor, and with the advice and consent of the senate appointed, for three-year terms: a member in good-standing of the American Academy of Actuaries, a health economist, an employee benefits specialist, a representative of small employers, a representative of an organization that represents consumer interests, a representative of organized labor, and an individual with experience in health care administration. The chairperson of the board is the commissioner, who must appoint an executive director of the authority. The executive director must, among other duties, supervise the administrative affairs and general management and operation of the authority, employ professional and clerical staff, as necessary, and prepare the authority's annual budget.

The authority is not a state agency, so numerous laws that apply to state agencies do not apply to the authority. However, the authority is treated like a state agency in the following ways, among others: it is subject to auditing by the Legislative Audit Bureau; it is subject to open meeting and open records laws; and it is exempt from property tax, income tax, and sales and uses taxes. The authority has powers, including adopting bylaws and policies and procedures for the regulation of its affairs and conduct of its business; hiring employees; incurring debt; suing and being sued in its own name; and executing contracts. The bill establishes a process that the authority must use when it contracts for professional services. Under the bill, the authority is subject to civil liability for its acts or omissions except that the maximum amount recoverable in a civil action against the authority is \$100,000. However, a member of the authority's board of directors, the authority's executive director, or an authority employee is exempt from civil liability unless the member, director, or employee acted with willful misconduct or in intentional violation of the law. The bill also imposes restrictions on board members and the authority's executive director pertaining to conflicts of interest and requires board members and the executive director to file financial disclosures.

***Health benefit exchange***

Under the bill, the authority has responsibility for operating a health benefit exchange in this state, as long as the authority receives federal grant moneys or other funds for the establishment of the exchange. The authority must make qualified health plans, with effective dates on or before January 1, 2014, available to qualified

**BILL**

individuals and qualified employers. A qualified health plan is defined in the bill, generally, as a health benefit plan that covers the costs of health care services and that meets the certification criteria described in the federal Patient Protection and Affordable Care Act (PPACA). A qualified individual is defined in the bill, generally, as a citizen or national of the United States, or an alien lawfully present in the United States, who is not imprisoned in a correctional facility and who resides in this state. A qualified employer is defined in the bill, generally, as an employer with not more than 100 employees (small employer) that either: 1) has its principal place of business in this state and elects to provide coverage to all of its eligible employees, wherever employed, through the small business health options program component of the exchange (SHOP Exchange) established by the authority or 2) elects to provide coverage through the SHOP Exchange to all of its eligible employees who are principally employed in this state.

Only health benefit plans that are certified by the authority as qualified health plans may be offered through the exchange. To be certified as a qualified health plan, a health benefit plan must provide the essential health benefits package described in PPACA, its premium rates and contract language must have been filed with and not disapproved by the commissioner of insurance (commissioner), it must provide at least a bronze level of coverage, as determined by the authority in accordance with criteria developed by the secretary of the federal Department of Health and Human Services (federal secretary), its cost-sharing must not exceed limits established in PPACA, the insurer offering it must meet specified criteria, and the authority must determine that making the plan available through the exchange is in the interest of qualified individuals and qualified employers in this state.

The authority must assign a rating to, and determine the level of coverage of, each qualified health plan offered through the exchange. The levels of coverage under PPACA are bronze, silver, gold, and platinum, and are based on what percentage of the full actuarial value of the benefits provided under the plan the benefits under the plan provides. An eligible employee of a qualified employer that provides coverage through the SHOP Exchange may enroll in any qualified health plan offered through the SHOP Exchange at the level of coverage specified by his or her employer.

After the exchange begins operating, no insurer may offer or issue health benefit plan coverage in this state to an individual or a small employer except through the exchange. Although any insurer that is authorized to do business in this state in one or more lines of insurance that includes health insurance may offer qualified health plans through the exchange, a health benefit plan may not be certified as a qualified health plan unless the insurer that offers it, among other things, is in good standing, charges the same premium for the plan through the exchange and outside of the exchange, offers through the exchange at least one qualified health plan in each of the silver and gold levels of coverage, and complies with regulations of the federal secretary and any other requirements established by the authority. In addition, any insurer that seeks certification of a health benefit plan as a qualified health plan must provide a justification for any premium increase; must make specified information available to the public, such as data on enrollment

**BILL**

and on the number of claims denied, claims payment policies and practices, and financial disclosures; and must permit individuals enrolled in the plan to learn the amount that an individual would be responsible for paying toward the cost of a specific item or service.

An insurer that offers coverage through the exchange must establish a toll-free hotline for providing information to enrollees and must pay a commission, determined by the authority, to an insurance intermediary who enrolls a qualified individual or employees of a qualified employer in a qualified health plan offered by the insurer through the exchange. For determining premiums, an insurer that offers coverage through the exchange may pool together all individuals and employees with coverage under all of the plans issued by the insurer through the exchange. To pay administrative expenses of the exchange, the authority may impose on each insurer offering plans through the exchange a surcharge that is based on the insurer's total premium or flat dollar amount per enrollee collected through the exchange.

The bill sets out numerous responsibilities for the authority with respect to the exchange. In addition to the administrative duties related to certifying and rating health benefit plans and enrolling qualified individuals and qualified employers, the authority must provide for the operation of a toll-free telephone hotline to respond to requests for assistance; establish an appeals process; establish and operate a service center to provide information; publicize the exchange; maintain a Web site with comparative information about qualified health plans; screen applicants for eligibility for Medical Assistance (MA) and, if eligible, assist them to enroll in MA; select, and award grants to, entities to serve as navigators for conducting public education activities and distributing information about, and facilitating enrollment in, qualified health plans; review the rate of premium growth within the exchange and outside of the exchange; and develop recommendations on whether qualified employers should be limited to small employers. The authority may establish risk adjustment mechanisms for the exchange, contract with a third-party administrator for services on behalf of the exchange, and establish sub-exchanges or other exchanges provided for under federal law. The authority must keep an accounting of all exchange-related activities and receipts and expenditures and annually submit a report of the accounting to the federal secretary, the governor, the commissioner, and the legislature.

The commissioner may promulgate rules related to the implementation of the exchange and must develop a standard application form for use in the exchange.

Because this bill creates a new crime or revises a penalty for an existing crime, the Joint Review Committee on Criminal Penalties may be requested to prepare a report concerning the proposed penalty and the costs or savings that are likely to result if the bill is enacted.

**Subject:** FW: new directions to exchange drafts

**Importance:** High

Dear Pam and Tammy,

We need some additional modifications to the LRB 0760/2. Kathleen has an individual reviewing the draft and he offered some modifications she would like to make which are outlined below. I included some comments that I hope will be helpful in understanding why Kathleen is asking for these changes.

Kathleen will be meeting with Sen. Erpenbach and Rep. Richards next week and is hoping to have the draft completed in time for that meeting on Tuesday. Sorry for the rush but she wants to be able to circulate this draft by Thursday. I hope this doesn't put undue burden on the two of you.

Here are the modifications:

1. On Page 28, lines 18 to 20, the Authority is authorized to make qualified health plans available to individuals. Kathleen would like to include language that explicitly states the Authority shall establish and operate an "American Health Benefit Exchange," the ACA's individual exchange - as authorized under the federal law. *or prohibited under federal law*
2. Section 636.43 (page 39, lines 23 to 25; and page 40, lines 1 and 2) prohibits a health carrier from offering or issuing "a health benefit plan in this state to an individual or to a small employer except through the exchange." One of the persons reviewing Kathleen's draft warned that this wording inadvertently creates a situation in which certain individuals or small employers who are forbidden by federal law to use the exchange in the first place will not be able to purchase coverage at all. The ACA dictates that only "qualified" individuals and "qualified" employers may use the exchange. Others (i.e., *unqualified* individuals or employers) may not use the exchange. They should then be able to buy coverage outside of the exchange, but this language prohibits insurers from selling insurance outside of the exchange. *unless the ind or emp is not eligible for cov through the exchange*

To address this concern she is asking for the following modification to that section: "...no health carrier may offer or issue a health benefit plan in this state to a **qualified individual** or to a **qualified employer** except through the exchange."

3. On page 35, lines 10 to 14, the language in the second sentence allows the Authority to begin operating "only if it receives federal grant money or other funds for the purpose of the exchange." The same person reviewing the draft is concerned about this language creating a situation in which the exchange cannot start operating because the state or the exchange chose not to seek, or did not receive, funding for some reason. Kathleen would like to modify this language to replace the second sentence (beginning on line 12 through line 14 with language that puts a prohibition on using GPR dollars - basically the Authority may not use GPR funding to establish or operate the exchange. She also wants to strengthen the language beginning line 10 through 12 to reference grant dollars in the federal law (as well as other grant sources) that state shall seek all grants to the fullest extent of the law - or the full amount eligible under the law.

4. On page 43, line 15 replace the word "chairperson" with the word "board" so that the board appoints an executive director.

Thanks for all of your work on this draft.

**Subject:** Health benefit exchange draft (LRB-0760)

Linda:

You requested that I send an e-mail regarding the reasons why certain suggested changes were not made to the draft.

1) The draft provides that after the exchange begins operating, no health carrier may issue a health benefit plan to an individual or a small employer except through the exchange. The suggestion was to change "individual" to "qualified individual" and "small employer" to "qualified employer." We did not make this change because it would not have had the effect that you want because of the definitions (from the NAIC model language) of those terms in the draft.

In the draft, to be a qualified individual or a qualified employer, an individual or an employer must satisfy all of the criteria listed in the definitions. For an individual, one of the criteria is that the individual is seeking to enroll in a qualified health plan through the exchange. Therefore, if an individual is not seeking to enroll in a qualified health plan through the exchange, the individual is not a qualified individual and a health carrier is not prohibited from issuing a health benefit plan to the individual outside of the exchange. It is basically circular: a health carrier would be prohibited from issuing a health benefit plan outside of the exchange to an individual who is seeking coverage through the exchange, but not otherwise. Similarly, to be a qualified employer under the definition, a small employer must have elected to provide coverage to its employees through the exchange. If an employer has not elected to do that, it is not a qualified employer and, with the suggested change, a health carrier would not be prohibited from issuing a health benefit plan outside of the exchange to that employer. So a loophole would be created: a health carrier could issue coverage outside of the exchange to an individual who is not seeking coverage through the exchange or to an employer that has not elected to provide coverage to its employees through the exchange.

2) Another suggestion was to add language prohibiting the authority from using GPR funding to establish or operate the exchange. We did not add this language because it is unnecessary. Authorities are not state agencies. They do not have accounts in the state treasury. Any funding from the state to the authority would have to be by an appropriation of funds from the state to the authority as a grant or a loan (see article VIII, section 2, of the constitution). The draft does not contain any appropriation to the authority. There is no need to prohibit the authority from using GPR funds, because the authority does not have access to any GPR funds unless GPR funds are appropriated to it by the legislature. Additionally, why would you want to prohibit the authority from using GPR funds if the legislature wanted to give it some in separate legislation? And if that happened, the language that prohibits the authority from using it would just be stricken or repealed in the legislation providing the funding.

Let me know if you have any questions about these explanations.
