Description									
Creating a preference in state procurement for Wisconsin-based businesses									

Assumptions Used in Arriving at Fiscal Estimate

Currently, Department of Tourism (Tourism) procurement that falls under this bill is already done through Wisconsin based companies. That isn't to say that a non-Wisconsin based company would not be the low bidder/proposer on a future competitive proposal. If/when this would occur, the 5% Wisconsin based preference would possibly come into play. This may lead to Tourism paying more than they would have had to if the preference proposed under this bill was not in effect or it may not. At this time, we are unable to determine what state fiscal effect this bill will have on Tourism.

Long-Range Fiscal Implications
