Subject: American Heart Association/CPR Resolution

Attachments: CPR-AED Awareness Week Proclamation - 2011.docx

Hi Mr. Miller,

Here is the sample language the American Heart Association sent us. Please let me know if you need anything else!

Thanks!
Jenny Hammernik
Legislative Aide
Office of Senator Van Wanggaard

CPR-AED
Awareness Week Procl

CPR-AED Awareness Week June 1-7, 2011
Sample language

Heart disease affects men, women, and children of every age and race in the United States and it continues to be the leading cause of death in America.

Approximately 295,000 emergency medical services-treated out-of-hospital cardiac arrests occur annually nationwide. Roughly 92 percent of sudden cardiac arrest victims die before being discharged from a hospital. Sudden cardiac arrest results from an abnormal heart rhythm in most adults, often ventricular fibrillation. Unfortunately, only 32 percent of out-of-hospital cardiac arrest victims receive bystander cardiopulmonary resuscitation (CPR).

Prompt delivery of CPR more than doubles the victim's chance of survival by helping to maintain vital blood flow to the heart and brain, increasing the amount of time in which an electric shock from a defibrillator may be effective.

Moreover, an automated external defibrillator (AED), even when used by a bystander, is safe, easy to operate and, if used immediately after the onset of sudden cardiac arrest, highly effective in terminating ventricular fibrillation so the heart can resume a normal, effective rhythm.

For every minute without bystander CPR, survival from witnessed cardiac arrest decreases 7-10 percent. The interval between the 911 telephone call and the arrival of Emergency Medical Services personnel is usually longer than five minutes; therefore, a cardiac arrest victim's survival is likely to depend on a public trained in CPR and AED use and access to these lifesaving measures.

The American Heart Association, the American Red Cross and the National Safety Council are preparing a public awareness and training campaign on CPR and AED use, to be held during the first week of June.

NOW, THEREFORE, I, [GOVERNOR NAME], Governor of [STATE], by virtue of the authority vested in me by the Constitution and laws of [STATE], do hereby proclaim June 1 – 7, 2011, as National CPR and AED Awareness Week. I commend the good work of the American Heart Association, the American Red Cross and the National Safety Council and I encourage all Americans to become properly trained in CPR and AED usage.

IN WITNESS WHEREOF, I have hereunto set my hand this [XXXX] day of [MONTH], in the year two thousand ten, and of the State of [STATE] [WRITE OUT AGE OF STATE].

~~PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION~~ *Q*

2011 SENATE JOINT RESOLUTION

in 5-23

1 **Relating to:** declaring June 1^{to} 7, 2011^{to} as Cardiopulmonary Resuscitation and
2 Automated External Defibrillator Awareness Week. ✓

3 Whereas, heart disease affects men, women, and children of every age and race
4 in the United States and continues to be the leading cause of death in America; and ✓

5 Whereas, approximately 295,000 emergency medical services-treated
6 out-of-hospital cardiac arrests occur annually nationwide; and ✓

7 Whereas, roughly 92 percent of sudden cardiac arrest victims die before being
8 discharged from a hospital; and ✓

9 Whereas, sudden cardiac arrest results from an abnormal heart rhythm in most
10 adults, often ventricular fibrillation; and ✓

11 Whereas, only 32 percent of out-of-hospital cardiac arrest victims receive
12 bystander cardiopulmonary resuscitation (CPR); and ✓

13 Whereas, prompt delivery of CPR more than doubles the victim's chance of
14 survival by helping to maintain vital blood flow to the heart and brain, increasing

1 the amount of time in which an electric shock from a defibrillator may be effective;
2 and ✓

3 Whereas, an automated external defibrillator (AED), even when used by a
4 bystander, is safe, easy to operate and, if used immediately after the onset of sudden
5 cardiac arrest, highly effective in terminating ventricular fibrillation so the heart
6 can resume a normal, effective rhythm; and ✓

7 Whereas, for every minute without bystander CPR, survival from witnessed
8 cardiac arrest decreases from ^{by} seven to ten percent; and

9 Whereas, the interval between the 911 telephone call and the arrival of
10 emergency medical services personnel is usually longer than five minutes, so a
11 cardiac arrest victim's survival is likely to depend on a public trained in CPR and
12 AED use and access to these lifesaving measures; and ✓

13 Whereas, the American Heart Association, the American Red Cross ^{and the}
14 National Safety Council are preparing a public awareness and training campaign on
15 CPR and AED use, to be held during the first week of June; now, therefore, be it ✓

16 **Resolved by the senate, the assembly concurring, That** the Wisconsin
17 legislature proclaims June 1st ^{to} 7, 2011, as Cardiopulmonary Resuscitation and
18 Automated External Defibrillator Awareness Week; and, be it further ✓

19 **Resolved, That** the legislature commends the good work of the American
20 Heart Association, the American Red Cross ^{and the} National Safety Council and
21 encourages all Americans to become properly trained in CPR and AED usage. ✓
