REQUIRED RETIREMENT CONTRIBUTION PROVISIONS

Repeal of the Benefit Adjustment Contribution

Motion:

Move to delete the provision that, beginning on the first day of the first pay period after March 13, 2011, for the purpose of calculating employee required contributions, the benefit adjustment contribution would be treated as an employer required contribution for the remainder of 2011.

Note:

The bill would repeal the benefit adjustment contribution component of the WRS contribution rate and repeal the current law authority of the ETF Board, on the advice of the actuary, to modify the components of the contribution rate to reflect overall increases or decreases in the rate over time.

The bill also provides that, beginning on the first day of the first pay period after March 13, 2011, for the purpose of calculating employee required contributions, the benefit adjustment contribution would be treated as an employer required contribution for the remainder of 2011.

The motion would delete this latter provision to clarify that the BAC would be repealed on the effective date of the bill.
