

2011 SENATE BILL 335

December 12, 2011 – Introduced by Senators WANGGAARD and OLSEN, cosponsored by Representative RADCLIFFE. Referred to Committee on Education.

1 **AN ACT** *to amend* 115.787 (2) (g) 1.; and *to create* 118.33 (1) (g) of the statutes;
2 **relating to:** authorizing a school board to grant a vocational high school
3 diploma.

Analysis by the Legislative Reference Bureau

Under current law, a school board may not grant a high school diploma to any pupil unless the pupil has earned at least 4 credits of English, 3 credits of social studies, 2 credits of science, 2 credits of mathematics, 1.5 credits of physical education, and 0.5 credits of health education.

This bill authorizes a school board to grant a vocational high school diploma to a pupil if the pupil:

1. Satisfies the above requirements.
2. Earns in grades 9 to 12 the same total number of credits that the school board requires of other pupils for high school graduation.
3. Successfully completes a vocational education program, established by the school board, in one or more subjects.

The bill authorizes a school board, in establishing a vocational education program, to incorporate standards for industry-wide certifications. The school board must indicate on a pupil's vocational high school diploma the certifications attained by the pupil.

Finally, the bill directs the Department of Public Instruction annually to provide each school board that offers high school grades a list of industry certifications.
