Analysis by the Legislative Reference Bureau

This bill creates licensure requirements and practice standards for anesthesiologist assistants.

The bill prohibits a person from practicing as an anesthesiologist assistant or representing or implying that the person is an anesthesiologist assistant unless the person holds a license to practice as an anesthesiologist assistant granted by the Medical Examining Board (board). The bill requires the board to issue a license to a person who has: 1) obtained a bachelor's degree; 2) completed an accredited anesthesiologist assistant program; and 3) passed a certifying examination. The board may also issue a license to a person who is licensed as an anesthesiologist assistant in another state, if that state authorizes a licensed anesthesiologist assistant to practice in the same manner and to the same extent as this state.

Under the bill, an anesthesiologist assistant may assist an anesthesiologist in the delivery of medical care only under the supervision of an anesthesiologist who

SENATE BILL 383

is immediately available and able to intervene if needed. The scope of an anesthesiologist assistant's practice is limited to assisting only the supervising anesthesiologist and performing only certain medical care tasks assigned by the supervising anesthesiologist. The medical care tasks are specified in the bill and include the following: 1) developing and implementing an anesthesia care plan; 2) implementing monitoring techniques; 3) pretesting and calibrating anesthesia delivery systems; 4) administering vasoactive drugs and starting and adjusting vasoactive infusions; 5) administering intermittent anesthetic, adjuvant, and accessory drugs; 6) implementing spinal, epidural, and regional anesthetic procedures; and 7) administering blood, blood products, and supportive fluids.

The bill requires an anesthesiologist assistant to be employed by one of certain health care providers specified in the bill and to enter into a supervision agreement with an anesthesiologist who represents the anesthesiologist assistant's employer. The supervision agreement must identify the anesthesiologist assistant's supervising anesthesiologist and define the scope of the anesthesiologist assistant's practice, and may limit the anesthesiologist assistant's practice to less than the full scope of anesthesiologist assistant practice authorized by the bill.

The bill authorizes a student anesthesiologist assistant to perform only medical care tasks assigned by an anesthesiologist, who may delegate the supervision of a student to a qualified anesthesiology provider. The bill also creates a five-member Council on Anesthesiologist Assistants to advise and make recommendations to the board.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1 **SECTION 1.** 15.407 (7) of the statutes is created to read:
