

**DRAFTER'S NOTE**  
**FROM THE**  
**LEGISLATIVE REFERENCE BUREAU**

LRB-1446/1dn  
RNK&MGG:cjs:ph

October 10, 2011

I added “reconstruct” to s. 30.123 (7) (d), but did not amend the other language regarding general permits. Please look at s. 30.123 (7) (a) 1., 2., and 3. under current law and let me know if you want any changes to those provisions.

This draft amends s. 30.025 (2) to allow notice of public hearings with regard to permits for utility facilities to be given by notice on DNR's Internet Web site in lieu of a Class 1 notice under current law. It also amends s. 30.2065 (3) (a) 1. to allow for Internet publication of DNR's notice of its intention to issue a general permit for certain wetland restoration activities. In accordance with the original instructions for this proposal, this draft only allows Internet publication to be made in lieu of a requirement that DNR publish a Class 1 notice. That is, there are certain other statutes that DNR administers in which DNR is required to provide a Class 2 notice or a Class 3 notice. This draft does not allow DNR to give notice on its Internet Web site in lieu of a Class 2 notice or a Class 3 notice. Is this consistent with your intent?

Also, please note that this draft revises the treatments of ss. 30.206 (2b) (a) 1. and 30.208 (5) (a) 1. in this draft to eliminate the requirement that DNR establish an electronic notification system to provide public notice under those provisions and to require, instead, publication of notice on DNR's Internet Web site. I made those changes so that all the Class 1 notices that DNR is required to provide may be provided on DNR's Internet Web site. Let me know if these changes are not consistent with your intent.
