This redraft clarifies the allowable size of a pier platform both before and after the effective date of this proposal. It also includes provisions that require the Department of Natural Resources to promulgate rules establishing deadlines for acting on certain applications for licenses, permits, and other determinations. Under this draft, if DNR does not meet the deadline with regard to certain approval applications, DNR must refund the application fees and the applicant may request an administrative hearing as if the application had been disapproved. For certain other approval applications, DNR's failure to meet the deadline for acting on an application constitutes an approval. These provisions are based upon provisions contained in 2003 Senate Bill 246. Please note the following:

1. The requirement for DNR to promulgate rules establishing deadlines for the specified ch. 30 approvals does not apply, under this draft, to general permits under s. 30.206, stats. I did not include general permits because s. 30.206, stats. already establishes time periods under which DNR must take action with regard to general permits. If you intended to change the time periods in current law under s. 30.206, please let me know. *stats.*

2. This draft includes provisions that specify conditions under which DNR may extend a deadline because an application is incomplete. Those provisions are inconsistent with the provisions in current law under s. 30.208, stats. with regard to determinations of complete applications for individual ch. 30 permits. Consequently, the provisions in the draft that specify conditions under which DNR may extend a deadline because an application is not complete (see s. 299.06 (5), as created in the draft), do not apply to applications for an individual ch. 30 permit. If you wish to make the provisions in current law with regard to ch. 30 permits consistent with the provisions in the draft as they concern determinations of completeness for other approvals, please let me know and I will redraft accordingly.

3. As with the previous version of this draft, this version contains embedded notes that raise issues that must be resolved before the draft can be put in final form.

Please feel free to contact me if you have questions with regard to this draft.

It turns out that we have a record that the jacket to LRB-1446 was returned to the LRB. So I will, in fact, just redraft LRB-1446 to a /2. I apologize for the confusion.

I don't believe the jacket ever reached me. I recall we were going back and forth with the Senate Org. Committee, as they would introduce it as a special session bill, but had to have it redrafted under a new number in order to do so. I checked with their office and they don't have the original jacket either. So, I don't know what became of that, but if you could just redraft it under a new LRB number, that would be great.

I just noticed that LRB-1446 was jacketed. Do you still have the jacket? If so, you will have to return it. If not, I will redraft the draft with a new LRB number. Also, once you introduce the bill, let me know the bill number for purposes of preparing the substitute amendment.

I agree, go ahead and draft 1446/2 as the regular session bill, then draft a substitute amendment to that bill which mirrors LRBs0254/2. And again, we give permission to the office of Rep. Jeff Mursau to have a

companion bill and amendment drafted when requested. Thanks!

Dan:

The draft that was used as the basis for Special Session Bill 24 was LRB-1446/1. So rather than enter and prepare a new draft, you can simply introduce that draft as the regular session bill. The only problem is that there is a very minor technical mistake in the draft (which was handled as a chief clerk's correction in the special senate bill) so we need to redraft LRB-1446 to a /2 to fix that problem. Let me know if you agree that it makes sense to just redraft LRB-1446 as the regular session bill.
