

**DRAFTER'S NOTE  
FROM THE  
LEGISLATIVE REFERENCE BUREAU**

LRB-1620/2dn  
PG:kjf:jf

April 28, 2011

Representative Fields,

I think there are two provisions in the draft that could be clarified. First, the draft requires that a person suspected of sustaining a concussion or head injury be removed from the athletic activity immediately. But the draft does not specify who is responsible for determining whether a participant may have sustained a head injury nor who is responsible for removing the participant from the activity. Second, in the definition of "youth athletic activity," the meaning of "an activity that is incidental to a nonathletic program" is unclear to me.

Please let me know if you would like me to assist you or your staff in clarifying these two areas.
