- 1 **AN ACT** *to create* 49.45 (4m) and 224.42 of the statutes; **relating to:** matching
2 financial records for Medical Assistance eligibility and providing a penalty.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Health Services (DHS) administers the Medical Assistance (MA) program, under which DHS, among other things, provides health care benefits to low-income families and individuals. Federal law requires each state to implement an asset verification program for purposes of determining eligibility for MA. This bill requires DHS to operate a financial record matching program (program) for MA applicants and recipients for whom asset verification is required for eligibility for MA. Under the program, financial institutions in this state must enter into agreements with DHS to participate in a financial institution matching option or a state matching option. DHS must pay such a financial institution up to \$125 per calendar quarter for participating.

Under the financial institution matching option, at least once every calendar quarter DHS sends information to the financial institution, including names, addresses, and social security numbers, about MA applicants, recipients, and other individuals whose resources are required by law to be disclosed to determine the eligibility of an MA applicant or recipient. The financial institution determines whether any MA applicant, recipient, or other individual has an ownership interest in an account at the financial institution and, if so, sends DHS information about the account, such as the type, number, and balance.

Under the state matching option, at least once every calendar quarter the financial institution sends DHS information about accounts maintained at the

SENATE BILL 474

financial institution, including the name and social security number of each person having an ownership interest in each account. On the basis of that information, DHS determines whether any MA applicant, recipient, or other individual has an ownership interest in an account at the financial institution and, if so, may request further information from the financial institution, including the person's address of record and the account balance.

The bill prohibits DHS from disclosing or retaining information concerning account holders who are not MA applicants, recipients, or other individuals; prohibits employees, agents, officers, and directors of financial institutions from disclosing or retaining information concerning MA applicants, recipients, or other individuals; and prohibits both DHS and financial institutions from using any information received under the program for any purpose not related to the program or administering MA. The bill provides penalties for any employee, agent, officer, or director of a financial institution who violates any of the prohibitions. The bill also provides that a financial institution is not liable for disclosing financial information, or taking other action, in compliance with the program.

The Department of Children and Families operates a similar financial record matching program with financial institutions for individuals who are obligated to pay court-ordered child support.
