Hello Rob,

I am going over today to Assembly Clerk's office with a jacketed version of this bill – it only has Rep. Jacque's and Sen. Lasee's name on it.

We are hoping you may be able to expedite a like jacketed companion on this to your Clerk's today. Any questions let me know.

Thanks!

MICHAEL P. MURPHY

2011 BILL

No change

X

Regen

1 AN ACT to amend 97.20 (1) (b) of the statutes; relating to: licensing of plants
2 that process certain foods made with milk or milk products.

Analysis by the Legislative Reference Bureau

Current law prohibits a person from operating a dairy plant without a license issued by the Department of Agriculture, Trade and Consumer Protection (DATCP). A dairy plant is a place where a dairy product is manufactured or processed for sale. Currently, the definition of "dairy product" includes any commodity in which milk or any milk product is a principal ingredient. Current law also authorizes DATCP to promulgate rules for the operation of dairy plants, including standards for equipment.

Under this bill, a place that manufactures or produces commodities that are intended to be heated before being consumed and in which milk or any milk product is a principal ingredient, and no other dairy products, must be licensed as a food processing plant, rather than as a dairy plant. DATCP's rules for food processing plants, including standards for equipment, differ from those for dairy plants.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

3 SECTION 1. 97.20 (1) (b) of the statutes is amended to read:
