

DRAFTER'S NOTE
FROM THE
LEGISLATIVE REFERENCE BUREAU

LRB-2088/P1dn
TKK:nwn:jf

May 19, 2011

Senator Lazich:

This bill makes a number of modifications to current law governing instruction in human growth and development. Please note that I did modify the phrasing of some of the amended sections, primarily to improve clarity or maintain consistent use of terminology; these sections include s. 118.019 (1), which is a statement of purpose, and s. 118.019 (2s), which authorizes school districts to offer instruction in human growth and development in single-sex classes. Please carefully review the draft to ensure that I have accomplished your intent.

Please be aware that LRB drafting conventions prohibit drafting attorneys from re-using a statutory number that has been repealed in the same draft. For that reason, I modified the numbering scheme included in the drafting instructions.
