Analysis by the Legislative Reference Bureau

VOLUNTARY AND INFORMED CONSENT AND INFORMATION ON DOMESTIC ABUSE SERVICES

Under current law, a woman upon whom an abortion is to be performed or induced must give voluntary and informed written consent to the abortion. Consent is voluntary only if it is given freely and without coercion. This bill requires that the physician who is to perform or induce the abortion determine whether or not the woman's consent is, in fact, voluntary. The physician must determine if the woman's consent is voluntary by speaking to her in person, out of the presence of anyone other than a person working for or with the physician. If the physician has reason to suspect that the woman is in danger of being physically harmed by anyone who is coercing the woman to consent to an abortion against her will, the physician must

SENATE BILL 306

inform the woman of services for victims or individuals at risk of domestic abuse and provide her with private access to a telephone.

Currently, a woman's consent to an abortion is considered informed only if, at least 24 hours before the abortion is performed or induced, the physician or an assistant has, in person, orally provided the woman with certain information and given the woman written materials prepared by the Department of Health Services (DHS). If the pregnancy is the result of sexual assault or incest, the 24-hour period, but not the provision of information, may be waived or reduced under certain circumstances. Any person who violates the informed consent requirements is required to forfeit not less than \$1,000 nor more than \$10,000 and is liable to the woman upon whom the abortion is performed or induced.

The bill requires that, at least 24 hours before the abortion is performed or induced, the physician or another qualified physician inform the woman that she has a right to refuse or consent to an abortion, that her consent is not voluntary if anyone is coercing her to consent to an abortion against her will, and that it is unlawful for the physician to perform or induce the abortion without her voluntary consent. The physician or another qualified physician must also inform the woman, at least 24 hours before the abortion is induced that, if the abortion is induced by an abortion-inducing drug, the woman must return to the abortion facility for a follow-up visit 12 to 18 days after use of the drug to confirm the termination of the pregnancy and evaluate the woman's medical condition. The bill requires that the physician or assistant inform the woman that the materials prepared by DHS, which must be given to her, contain information on services available for victims or individuals at risk of domestic abuse. Additionally, the bill requires DHS to include in the printed materials information on services in the state that are available for victims or individuals at risk of domestic abuse. The bill specifies that none of the penalties for violating the informed consent requirements may be assessed against the woman upon whom the abortion is to be performed or induced or attempted to be performed or induced.

RESTRICTIONS ON THE USE OF ABORTION-INDUCING DRUGS

This bill prohibits a person from giving a woman an abortion-inducing drug unless the physician who provided the drug for the woman performs a physical exam on the woman and is physically present in the room when the drug is given to the woman. An abortion-inducing drug is a drug that is prescribed to terminate the pregnancy of a woman who is known to be pregnant. Under this bill, a person who gives a woman an abortion-inducing drug in a manner that violates the prohibition is guilty of a Class I felony and may be subject to a civil action. This bill specifies that a penalty may not be assessed against a woman who receives an abortion-inducing drug.

REPEAL OF CERTAIN ABORTION PROHIBITIONS

Under current law, a pregnant woman who intentionally destroys the life of her unborn child or who consents to such destruction by another may be fined not more than \$200, imprisoned not more than six months, or both. For the same action with respect to an unborn quick child the penalty is a fine not to exceed \$10,000, imprisonment for not more than three years and six month, or both. None of these

SENATE BILL 306

penalties apply to a therapeutic abortion that is performed by a physician; is necessary, or advised by two other physicians as necessary, to save the life of the mother; and is performed, except on an emergency basis, in a licensed maternity hospital. These provisions were cited, along with other provisions not affected by this bill that prohibit performing an abortion generally, in *Roe v. Wade*, 410 U.S. 113 (1973), as substantially similar to a Texas statute that was held to violate the due process clause of the 14th Amendment to the U.S. Constitution.

A separate provision in current law prohibits prosecution of and imposing or enforcing a fine or imprisonment against a woman who obtains an abortion or otherwise violates any abortion law with respect to her unborn child or fetus. Further, crimes of being a party to a crime, solicitation, and conspiracy do not apply to a woman who obtains an abortion or otherwise violates an abortion law with respect to her unborn child or fetus.

This bill repeals the provisions in current law under which a pregnant woman who intentionally destroys the life of her unborn child or who consents to such destruction by another may be fined, imprisoned, or both. The bill does not affect any other criminal prohibition or limitation on abortion in current law and does not affect the provision that prohibits the prosecution, fine, or imprisonment against a woman who obtains an abortion or otherwise violates any abortion law with regard to her unborn child or fetus.
