Assumptions Used in Arriving at Fiscal Estimate

The requirement to mark the highway would be accomplished consistent with traffic sign standards adopted under Wisconsin law. The highest priority to be served by traffic signs is to effectively guide and warn motorists so that the highway provides safe and efficient travel. Traffic control devices, including highway signs, are essential elements for guiding drivers to their destinations and achieving safety. As such, use of markers or signs is limited and, when designations are made, markers are typically placed outside the clear zone of the roadway in a nearby roadside facility or public space.

At this time, highway designations are also listed on the Official State Highway Map, although space limitations may be a concern. In addition, the Department does share information about designations on its web site.

No state funds are to be used for erecting or maintaining the markers. Instead, private contributions will be used to cover these expenses.

Long-Range Fiscal Implications

No state funds are to be used for erecting or maintaining the markers. Instead, private contributions will be used to cover these expenses.
