

Fiscal Estimate Narratives

DNR 12/14/2011

LRB Number	11-3499/1	Introduction Number	SB-319	Estimate Type	Original
Description Elimination of the requirement that the governor approve a proposed rule that was considered at the joint annual spring fish and wildlife rule hearing of the Department of Natural Resources and county meeting of the Wisconsin Conservation Congress and limitation of the scope of the requirement that an economic impact analysis be prepared for such a proposed rule					

Assumptions Used in Arriving at Fiscal Estimate

Bill Summary

The bill reverses changes made in 2011 Wisconsin Act 21 relating to the administrative rule-making process, including requiring gubernatorial approval of the statement of the scope of a proposed rule (statement of scope) and the final draft of a proposed rule and expanding the scope of the requirement that an economic impact analysis be prepared for a proposed rule. However, this reversal applies only to proposed rules that are considered at the joint annual spring fish and wildlife rule hearing of the Department of Natural Resources and county meeting of the Wisconsin Conservation Congress.

Fiscal Effect

The Department anticipates an indeterminate cost savings from faster promulgation of certain permanent fish and wildlife rules developed through the Conservation Congress spring hearing process and from not having to perform an economic impact analysis on those type of rules.

Long-Range Fiscal Implications
