| Changing the boundaries of Marquette County and Green Lake County |                     |        |               |          |  |  |

## Assumptions Used in Arriving at Fiscal Estimate

Senate Bill (SB)80 would change the legal description of the boundaries of Green Lake County and Marquette County. The bill would conform the state statute to the boundaries actually used by the counties, citizens and businesses that reside in the area in question insofar as where they vote, pay taxes and seek services.

The proposal would have limited fiscal impact on the Department of Administration. If development would occur in the approximately 890 acres that would be affected by this proposal, the data and reference maps used to evaluate the development would need to be updated. The Demographic Service Center may have to adjust their population data so affected residences would be listed in the correct county. The cost for both these activities would be negligible.

For local governments there should be either no or minimal fiscal impact because the land in question has been taxed and treated by both Green Lake County and Marquette County as though it is part of Marquette County and SB 80 changes the statutory boundaries to place the land in Marquette County.

## **Long-Range Fiscal Implications**

None.
