REFERRAL OF AGENCY REPORTS

State of Wisconsin
Department of Health Services
Madison

April 19, 2011

To the Honorable, the Legislature:

The Department of Health Services is pleased to submit the 2010 Annual Report to the Governor and the Legislature on the Wisconsin Tobacco Prevention and Control Program (TPCP). The report is required by Wisconsin Statute s. [252.01 \(11\)](#).

Tobacco contributes to the deaths of 8,000 Wisconsin citizens every year and costs the state nearly \$4 billion in annual health care costs and lost worker productivity. The TPCP is responsible for providing leadership, facilitating diverse partnerships, and administering funding and prevention program activities. The TPCP continues to invest in evidence-based strategies within a comprehensive effort to effectively reduce tobacco use and exposure.

Wisconsin continued its success during 2010 in preventing youth tobacco use and promoting tobacco addiction treatment, eliminating tobacco-related disparities and eliminating exposure to secondhand smoke.

Every dollar invested in the state's comprehensive tobacco control program yields dividends in health care savings. Tobacco use contributes to the deaths of more people each year in Wisconsin than alcohol, Acquired Immune Deficiency Syndrome (AIDS), car crashes, illegal drug use, murder and suicide combined. The work of the TPCP and its partners will continue to reduce the burden of tobacco in Wisconsin.

Sincerely,
DENNIS G. SMITH
Secretary

Referred to committee on **Health**.
