2011 ASSEMBLY BILL 110

AN ACT to amend 20.255 (2) (cy), 115.77 (1), 115.791 (4), 121.08 (4) (c), 121.08 (4) (d) and 121.54 (3); and to create 20.255 (2) (az), 115.7915, 121.05 (1) (a) 4. and 121.08 (4) (am) of the statutes; relating to: creating the Special Needs Scholarship Program for disabled pupils, granting rule-making authority, and making an appropriation.

Analysis by the Legislative Reference Bureau

This bill establishes a Special Needs Scholarship Program. Under the program, a child with a disability may receive a scholarship to attend a public school located outside the pupil’s school district of residence, or a private school, if all of the following conditions are met:

1. The school has notified the Department of Public Instruction (DPI) of its intent to participate in the program and the child has been accepted by the school.
2. If the school is a private school, it is approved as a private school by DPI or is accredited.
3. An individualized education program (IEP) has been completed for the child.
4. The child attended a public school, or did not attend school in this state, in the previous school year.

Upon receipt of an application for a scholarship, DPI must review the child’s IEP and determine the amount of the child’s scholarship. The amount is the lesser of the cost to the child’s school district of residence, or the cost to the school district or private school that the child wishes to attend, of providing regular instruction,
ASSEMBLY BILL 110

instructional and pupil support services, special education and related services, and supplementary aids and services to the child. If the child is attending for less than a full school term, DPI must prorate the amount of the scholarship.

DPI pays the scholarship directly to the school or school district that the child will attend. The scholarship continues while the child attends a school eligible to participate in the program until he or she graduates from high school or until the end of the school term in which he or she turns 21, whichever comes first.

Under the bill, a pupil attending a private school, or a public school outside the pupil’s school district of residence, under the program is counted for state aid purposes by the pupil’s school district of residence. However, the state aid paid to that school district is reduced by the total amount of scholarships paid by DPI for pupils who reside in that school district.

Each private school participating in the program must comply with applicable health and safety laws; hold a valid occupancy permit, if required by the municipality; comply with federal law that prohibits discrimination against any person on the basis of race, color, or national origin; and conduct criminal background investigations of its employees and exclude from employment any person not permitted to hold a teaching license as the result of an offense any any person who might reasonably be believed to pose a threat to the safety of others.

The private school must also annually submit to DPI a school financial report prepared by a certified public accountant. If the private school expects to receive at least $50,000 in scholarships during a school year, it must either file a surety bond with DPI or provide DPI with information demonstrating that it has the ability to pay an amount equal to the total amount of scholarships that it expects to receive.

The bill provides that if a child attends a private school under the program, his or her school district of residence must provide transportation to and from the school if the school is located at least two miles from the child's residence, the child resides in the private school’s attendance area, and the private school is situated within the school district of residence or not more than five miles beyond the boundaries of the school district.

If the child attends a public school under the program, the child’s parent is responsible for transporting the child to and from school unless transportation is required in the child’s IEP. If the latter applies, the school district that the child attends is responsible for transporting the child. The bill allows a low-income pupil to apply to DPI for reimbursement of transportation costs.

The bill authorizes DPI to bar a school from participating in the program if the school intentionally and substantially misrepresents information required under the bill, routinely fails to comply with financial standards, uses a pupil’s scholarship for any purpose other than educational purposes, or fails to refund any scholarship overpayments to the state.

Finally, the bill directs the Legislative Audit Bureau to contract for a study of the program. The results of the study must be reported to the legislature by January 9, 2015.
For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
