relating to: hunting and trapping of wolves, providing an exemption from emergency rule procedures, extending the time limit for emergency rule procedures, and making an appropriation.

Analysis by the Legislative Reference Bureau

This bill requires the Department of Natural Resources (DNR) to issue wolf harvesting licenses if the wolf is removed from the U.S. and Wisconsin lists of endangered and threatened species. Under the bill, both state residents and nonresidents may be issued a license. The license authorizes both the hunting and trapping of wolves. The bill requires that there be a single annual season for wolf hunting and trapping from October 15 through the end of February. Under the bill, DNR may limit the number of licenses issued and the number of wolves to be harvested. The bill requires DNR to divide the state into up to four wolf harvesting zones. A wolf harvesting license authorizes the license holder to hunt or trap or both only in the zone that is specified on the license.
Under the bill, if the number of persons applying for a wolf harvesting license exceeds the number of licenses that will be issued, DNR shall issue the licenses based on a cumulative preference system. The system shall establish preference categories for those applicants who applied for, but who were not issued, a wolf harvesting license in previous seasons, with higher preference given to those applicants with more preference points. Under the preference system, a person may elect to apply for a preference point instead of a license in a given year. Each person receiving a license will receive one tag. The bill also allows the transfer of licenses and preference points under certain circumstances.

The bill specifies the types of firearms that may be used for wolf hunting and also allows the use of bows and arrows and crossbows for wolf hunting. A crossbow may be used by any person holding a wolf harvesting license. For hunting wolves, the bill allows the use of dogs for part of the season and allows the baiting of wolves with bait other than animal byproducts except for liquid scents. Hunting wolves at night is also authorized for part of the season. Under the bill, the types of traps that may be used for trapping wolves must include cable restraints. A cable restraint is a type of trap using a noose made of cables.

The bill requires DNR to administer a program under which payments may be made to persons for death or injury caused by wolves to livestock, to hunting dogs other than those being used in the hunting of wolves, and to pets. Under current law, DNR has promulgated rules establishing such a program. Under the bill, the moneys collected as fees for wolf harvesting licenses are to be used to make payments under this program. If, after making these payments, there are any moneys remaining, DNR may use the moneys for wolf management and control activities conducted by DNR.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

**SECTION 4.** 29.179 (1) (a) 10m. of the statutes is created to read:

29.179 (1) (a) 10m. Wolf harvesting license.

**SECTION 5.** 29.180 (1) (a) 10m. of the statutes is created to read:

**SECTION 6.** 29.185 of the statutes is created to read:

29.185 **Wolf harvesting licenses.** (1) **DEPARTMENT AUTHORITY.** If the wolf is not on the U.S. list of endangered and threatened species, as it applies to this state, and is not on the list of endangered and threatened Wisconsin species that is established under s. 29.604 (3) (a), the department shall regulate the hunting and trapping of wolves as provided in this section. In regulating wolf hunting and trapping, the department may limit the number of wolf hunters and trappers and the number of wolves that may be taken by issuing wolf harvesting licenses.

(2) **LICENSES REQUIRED.** (a) **Prohibition.** Except as authorized under a wolf harvesting license, no person may hunt or trap a wolf. Both residents and nonresidents are eligible for wolf harvesting licenses.
(b) Resident archer licenses and trapping licenses. Notwithstanding ss. 29.171 (2), 29.216 (2), and 29.241 (3), a resident archer hunting license, a nonresident archer hunting license, or a trapping license does not authorize the hunting or trapping of wolves.

(3) Issuance of licenses. (a) Issuance; generally. Except as provided in par. (b), if the department establishes an open season as provided under sub. (5), the department, subject to ss. 29.024 and 54.25 (2) (c) 1. d., shall issue a wolf harvesting license to each person who applies for the license, and who pays the required fees for the license.

(b) Cumulative preference system. In issuing wolf harvesting licenses under this subsection, the department shall determine the number of licenses that will be available for a given year. If the number of qualified applications for wolf harvesting licenses exceeds the number of licenses that are available, the department shall select the applicants to be issued the license based on a cumulative preference system. The system shall establish preference categories for those applicants who applied for but who were not issued a wolf harvesting license in previous seasons, with higher preference given to those applicants with more preference points. If the number of applicants within a preference category exceeds the number of wolf harvesting licenses available in the category, the department shall select at random within the category the applicants to be issued the licenses. For each season, the department shall allow each applicant to apply for a preference point or for a license. The department shall give a preference point to each applicant who applies for a preference point and to each applicant who applies for license but who is not selected. An applicant who applies for either a preference point or a license at least once during any 3 consecutive years shall not lose his or her acquired preference points under the
system. A person applying under the system shall pay the processing fee at the time of application.

(c) Preference system; on receipt of license. A applicant who is selected to receive a wolf harvesting license under the cumulative preference system established under par. (b) may elect to receive a preference point instead of a license if he or she serving on active duty in the U.S. armed forces or national guard during all or part of the wolf harvesting season for which the license is issued.

(4) Transfer of license. (a) Upon application by a holder of a wolf harvesting license to the department to transfer the license to another person and upon payment of any fee required under par. (b), the department shall transfer the license if the application is made no later than the 15 days immediately preceding the first day of the wolf harvesting season if the person to whom the license is transferred is at least 18 years of age and is otherwise eligible to use the license. The accompanying carcass tag shall also be transferred.

(b) If the holder of the wolf harvesting license is a resident and the holder applies to transfer the license to a nonresident, the holder shall pay, at the time of application, any difference between the fee for issuing the license to a resident and the fee for issuing the license to a nonresident.

(c) A holder of a license being transferred under this section may not receive any consideration for the transfer of the license.

(5) Seasons; zones. (a) The department shall establish a single annual open season for both hunting and trapping wolves that begins on October 15th of each year and ends on the last day of February of the following year.

(b) The department shall divide the entire state into wolf harvesting zones. The total number of zones may not exceed 4. Each zone shall be open to both hunting and
trapping, except as provided in par. (c). A wolf harvesting license authorizes its holder to hunt or trap or both only in the zone specified on the license.

(c) The department may close a wolf harvesting zone to both hunting and trapping of wolves, if the department determines that the closure is necessary to effectively manage the state’s wolf population. Notwithstanding ss. 29.014 and 227.10 (1) such closure need not be promulgated as a rule under ch. 227. Closure of a wolf harvesting zone under this paragraph may not take effect until at least 24 hours after the department has done all of the following:

1. Posted notice of the closure on its Internet Web site.
2. Announced the closure on its telephone registration system.
3. Issued a press release announcing the closure.

(d) The department may close a wolf harvesting zone to hunting of coyotes during a season that authorizes hunting of deer with firearms if the department determines that the closure is necessary to effectively manage the state’s wolf population.

(6) AUTHORIZED HUNTING AND TRAPPING ACTIVITIES. (a) Authorization; hunting. A wolf harvesting license authorizes the hunting of wolves by using any of the following:

1. A firearm, as authorized under par. (b), a bow and arrow, or a crossbow.
2. Dogs to track or trail wolves, subject to par. (c).
3. Predator calls, including electronic calls.
4. Bait that does not involve animal parts or animal byproducts, other than liquid scents.

(b) Firearms and ammunition. A wolf harvesting license authorizes hunting with a rifle, a muzzle-loading firearm, a handgun, a shotgun that fires slugs or
shotshells, and any other firearm that is loaded with a single slug or ball. A wolf harvesting license authorizes hunting with shot that is larger than size BB.

(c) Use of dogs. 1. A person may hunt wolves using dogs beginning with the first Monday that follows the last day of the regular season that is open to hunting deer with firearms and ending on the last day of February of the following year.

2. No more than 6 dogs in a single pack may be used to trail or track a wolf, regardless of the number of hunters assisting the holder of the wolf harvesting license.

3. While a person is using a dog to hunt wolf, the person shall keep on his or her person any tag required for the dog under s. 95.21 (2) (f), 174.053 (2), or 174.07 (1) (e).

(d) Hunting at night. A person may hunt wolves during nighttime beginning with the first Monday that follows the last day of the regular season that is open to hunting deer with firearms and ending on the last day of February of the following year.

(e) Inapplicability of restrictions. A person who is hunting as authorized under a wolf harvesting license is not subject to any restrictions relating to hunting seasons, zones, or times that the department imposes on the hunting of coyote.

(f) Trapping; types of traps. The types of traps that shall be authorized by the department for trapping wolves shall include cable restraints.

(7) Tags; registration. (a) The department shall issue one wolf carcass tag to each person who is issued a wolf harvesting license under sub. (3). Each holder of a wolf harvesting license who kills a wolf shall immediately validate and attach the carcass tag to the wolf. No person may possess, control, store, or transport a wolf carcass unless it is tagged as required under this paragraph. The carcass tag shall
be attached and validated in the manner required by the department. A person who
kills a wolf shall register the carcass with the department on a telephone registration
system or through an electronic notification system established by the department.
The carcass tag may not be removed before registration. The removal of a carcass
tag from a wolf before registration results in the wolf being untagged.

(b) A person who harvests a wolf that has an attached or implanted radio
telemetry device shall return the device to the department. The department shall
inform the person, upon his or her request, of any information that has been collected
through the telemetry device or otherwise by the department that relates that the
wolf that was harvested.
