Analysis by the Legislative Reference Bureau

Under current law, generally, the Department of Commerce (Commerce) may certify a person to receive income and franchise tax credits based on the person’s expenditures to acquire, improve, or construct real property or acquire tangible personal property in this state related to the person’s business. Under this bill, Commerce may award a grant to a person who wishes to secure financing to make expenditures that would qualify for such tax credits. A person is eligible to receive a grant if the expenditures are made for a business located in this state that has fewer than 25 employees in this state or less than $5,000,000 in gross receipts. No person may receive a grant unless the person has submitted business and financing plans to a commercial lending institution and submitted copies of the plans to Commerce. Before awarding a grant, Commerce must verify that the lender has approved the person’s plans and will underwrite a loan for expenditures, contingent on the person receiving a grant. Under the bill, a person who receives a grant to secure financing for making an expenditure that would qualify for a tax credit may not claim a credit for that expenditure.
For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
