Analysis by the Legislative Reference Bureau

Introduction

This bill makes various changes relating to 1) the authority of a state agency (agency) to promulgate administrative rules (rules) interpreting the provisions of a statute enforced or administered by the agency and to implement or enforce any standard, requirement, or threshold as a term or condition of a license issued by the agency; 2) gubernatorial approval of proposed rules; 3) economic impact analyses for proposed rules; and 4) venue in declaratory judgment actions seeking judicial review of the validity of a rule and in actions in which the sole defendant is the state.

Agency authority to promulgate rules and implement standards

Under current law, an agency may promulgate rules interpreting the provisions of any statute enforced or administered by the agency, if the agency considers it necessary to effectuate the purpose of the statute, except that a rule is not valid if the rule exceeds the bounds of correct interpretation.

This bill provides that all of the following apply to the promulgation of a rule interpreting the provisions of a statute enforced or administered by an agency:

1. A statutory or nonstatutory provision containing a statement or declaration of legislative intent, purpose, findings, or policy does not confer rule-making authority on the agency or augment the agency's rule-making authority beyond the rule-making authority that is expressly conferred on the agency by the legislature.

2. A statutory provision describing the agency's general powers or duties does not confer rule-making authority on the agency or augment the agency's rule-making authority beyond the rule-making authority that is expressly conferred on the agency by the legislature.

3. A statutory provision containing a specific standard, requirement, or threshold does not confer rule-making authority on the agency or augment the agency's rule-making authority beyond the rule-making authority that is expressly conferred on the agency by the legislature.

The bill also prohibits an agency from implementing or enforcing any standard, requirement, or threshold as a term or condition of any license issued by the agency unless such implementation or enforcement is expressly required or permitted by statute or by a rule that has been promulgated in accordance with statutory rule-making procedures. In addition, the bill permits the governor, by executive order, to prescribe standards to ensure that rules are promulgated in compliance with the subchapter of the statutes governing rule making.
Gubernatorial approval of proposed rules

Current law requires an agency that is planning to promulgate a rule to prepare a statement of the scope of the proposed rule (statement of scope), present the statement of scope to the individual or body with policy-making powers over the subject matter of the proposed rule (policy-making individual or body) for approval, and send the statement of scope to the Legislative Reference Bureau (LRB) for publication in the Wisconsin Administrative Register (register). Currently, the policy-making individual or body may not approve a statement of scope until at least tenth days after publication of the statement of scope in the register. Current law also provides that if the policy-making individual or body does not disapprove the statement of scope within 30 days after it is presented to that individual or body, or by the eleventh day after its publication in the register, whichever is later, the statement is considered to be approved. Finally, current law prohibits a state employee or official from performing any activity in connection with the drafting of a proposed rule, except for an activity necessary to prepare the statement of scope, until the policy-making individual or body approves the statement of scope.

This bill makes the following changes with respect to statements of scope:

1. Requires a statement of scope to be approved by the governor as well as by the policy-making individual or body before the statement of scope may be sent to the LRB for publication in the register and prohibits a state employee or official from performing any activity in connection with the drafting of a proposed rule, except for an activity necessary to prepare the statement of scope, until the governor as well as the policy-making individual or body approves the statement of scope.

2. Eliminates automatic approval of a statement of scope if the policy-making individual or body does not disapprove the statement of scope within 30 days after it is presented to that individual or body, or by the eleventh day after its publication in the register, whichever is later.

3. Requires an agency to prepare and obtain approval of a revised statement of scope if after a statement of scope is approved the agency changes the scope of the proposed rule in any meaningful or measurable way.

4. Requires an agency to prepare and obtain approval of a statement of scope for a proposed emergency rule in the same manner as a statement of scope is prepared and approved for a nonemergency rule. A statement of scope for a proposed emergency rule must be published at the same time that the emergency rule is published. If the agency changes the scope of a proposed emergency rule, the agency must prepare and obtain approval of a revised statement of scope for the proposed emergency rule in the same manner as a revised statement of scope is prepared and approved for a nonemergency rule.

In addition, the bill requires an agency to submit a proposed rule in final draft form to the governor for approval before the rule may be submitted to the legislature for review or filed with the LRB for publication and to submit a proposed emergency rule in final draft form to the governor for approval before the emergency rule may be filed with the LRB for publication.
Economic impact analyses for proposed rules

Under current law, before the Department of Agriculture, Trade and Consumer Protection (DATCP), the Department of Commerce (Commerce), the Department of Natural Resources (DNR), the Department of Transportation (DOT), or the Department of Workforce Development (DWD) may submit a proposed rule to the legislature for review, a municipality, an association that represents a farm, labor, business, or professional group, or five or more persons that would be affected by the proposed rule may submit a petition to the Department of Administration (DOA) requesting the secretary of administration (secretary) to direct DATCP, Commerce, DNR, DOT, or DWD to prepare an economic impact report for the proposed rule. The secretary may direct the preparation of an economic impact report in any case and must direct the preparation of such a report if: 1) the proposed rule would cost affected persons $20,000,000 or more during each of the first five years after the rule’s implementation to comply with the rule; or 2) the rule would adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or state, local, or tribal governments or communities. An economic impact report, however, is not required for an emergency rule.

An economic impact report must contain information on the effect of the proposed rule on specific businesses, business sectors, and the state’s economy and must include all of the following: 1) an analysis and quantification of the problem, including any risks to public health or the environment, that the rule is intending to address; 2) an analysis and quantification of the economic impact of the rule, including costs reasonably expected to be incurred by the state, governmental units, associations, businesses, and affected individuals; and 3) an analysis of benefits of the rule, including how the rule reduces the risks and addresses the problems that the rule is intended to address. The agency must submit the economic impact report to the legislative council staff and DOA and may not submit the proposed rule to the legislature until DOA has issued a report on the proposed rule and the secretary has approved the proposed rule.

This bill requires any state agency to prepare an economic impact analysis, rather than a report, before the agency may submit any proposed rule to the legislative council staff for review, which must be done before a public hearing is held on the proposed rule or, if no public hearing is held, before the proposed rule is submitted to the legislature for review. The bill also requires an economic impact analysis to be prepared before a proposed emergency rule is filed with the LRB, which must be done before the emergency rule becomes valid.

The bill also requires certain additional information to be included in an economic impact analysis. Specifically, in addition to the information that must be included in an economic impact report under current law, an economic impact analysis must also include:

1. Information on the effect of a proposed rule on public utility ratepayers.
2. An analysis of alternative to the proposed rule, including the alternative of not promulgating the rule.
3. A determination made in consultation with the businesses and individuals that may be affected by the proposed rule as to whether the proposed rule would adversely affect in a material way the economy, a sector of the economy, productivity, jobs, or the overall economic competitiveness of this state.

4. Comparisons with the approaches used by the federal government and by Illinois, Iowa, Michigan, and Minnesota to address the policy problem that the proposed rule is intending to address and, if the approach chosen by the agency to address that policy problem is different from those approaches, a statement as to why the agency chose a different approach.

5. An assessment of how effective the proposed rule will be in addressing the policy problem that the rule is intended to address.

In addition, the bill requires all of the following:

1. An agency to submit an economic impact statement not only to the legislative council staff and DOA as under current law but also to the governor and to the chief clerk of each house of the legislature for distribution to the presiding officers of each house, the chairpersons of the appropriate standing committees of each house, and the cochairpersons of the Joint Committee for Review of Administrative Rules (JCRAR).

2. DOA to issue a report on a proposed rule, and the secretary to approve a proposed rule, if the economic impact analysis indicates that a total of $20,000,000 or more in implementation and compliance costs are reasonably expected to be incurred by or passed along to businesses and individuals as a result of the proposed rule.

3. An agency to prepare a revised economic impact analysis if a proposed rule is modified after the original economic impact analysis is submitted so as to significantly change the economic impact of the proposed rule.

4. The legislative council staff to provide on its Internet site an economic impact analysis submitted to the legislative council staff or a link to that analysis.

5. A notice of a public hearing on a proposed rule to include the economic impact analysis for the proposed rule and any report on the proposed rule prepared by DOA, or a summary of that analysis and report and a description of how the full analysis and report may be obtained from the agency at no charge.

6. An agency to prepare an economic impact analysis for a proposed emergency rule and to submit that analysis to DOA, to the governor, and to the chief clerks of each house of the legislature for distribution to the presiding officers of each house, to the chairpersons of the appropriate standing committees of each house, and to the cochairpersons of JCRAR. If the economic impact analysis indicates that a total of $20,000,000 or more in implementation and compliance costs are reasonably expected to be incurred by or passed along to businesses and individuals as a result of the proposed emergency rule, DOA must review the proposed rule and issue a report, and the agency may not file the proposed emergency rule with the LRB until the agency receives a copy of that report and the approval of the secretary.

**Venue in judicial review actions and in actions against state**

Under current law, subject to certain exceptions, the exclusive means of judicial review of the validity of a rule is by an action for declaratory judgment as to the
validity of the rule brought in the circuit court for Dane County. This bill permits a declaratory judgment action seeking judicial review of the validity of a rule to be brought in the county where the party asserting the invalidity of the rule resides or has its principal place of business.

Under current law, any civil action or special proceeding in which the state, a state board or commission, or a state officer, employee, or agent acting in his or her official capacity is the sole defendant, is venued in Dane County. Under the bill, those actions are venued in the county where the plaintiff resides unless a different venue is specifically authorized by law. Under the bill, if a plaintiff is not a resident of the state or is not a natural person, the action is venued in the county where the dispute arose.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
