SENATE BILL 10

January 19, 2011 – Introduced by COMMITTEE ON SENATE ORGANIZATION, by request of Governor Scott Walker. Referred to Committee on Natural Resources and Environment.

AN ACT to amend 59.692 (6m), 62.231 (6m), 87.30 (1) (d) and 281.165 (1); and to create 281.165 (4) of the statutes; relating to: an exemption from water quality standards for wetlands and from certain other regulatory provisions concerning water quality and surface water use that apply to a wetland area in Brown County; and review of certain changes to shoreland, wetland, and floodplain zoning ordinances that apply to a wetland area in Brown County.

Analysis by the Legislative Reference Bureau

Under this bill, an activity affecting a wetland in Brown County is considered to be in compliance with the water quality standards applicable to wetlands and exempts the activity from other laws administered by DNR that relate to water quality and navigable waters if the activity meets certain criteria. These criteria include that the wetland area to be affected must be less than three acres in size, that the site of the activity is in a tax incremental district, and that the person engaged in the activity will complete mitigation at a ratio of at least 1.5 acres of wetlands created or mitigation bank credits purchased to one acre of wetland affected depending on whether the wetland is a federal or nonfederal wetland.
For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
