Analysis by the Legislative Reference Bureau

Under current law, the Medical Examining Board grants physician assistant
licenses to individuals who meet training and examination requirements and any
other requirements established in rules promulgated by the Medical Examining
Board.

The following provisions under current law authorize physicians or other
health care professionals to act under specified circumstances and to affect
individuals by these authorized actions:

1. Unless medically contraindicated as documented by a nursing home or
community–based residential facility resident’s physician in the resident’s medical
record, the resident has the right to private and unrestricted communications with his or her family, physician, attorney, and others; to share a room with his or her spouse or domestic partner if the spouse or domestic partner is also a resident; to participate in activities of social, religious, and community groups; and to be free from chemical and physical restraints.

2. Home health services that are provided to an individual by a home health agency must be those specified under a plan for furnishing the services that is established and periodically reviewed by a physician.

3. For hearings before the local board of review concerning assessments of property taxes, an ill or disabled person who presents to the board a letter from a physician or osteopath confirming the illness or disability may present testimony by telephone.

4. Under laws relating to confidentiality of patient health care records, a physician who treats a patient whose physical or mental condition, in the physician’s judgment, affects his or her ability to exercise reasonable and ordinary control over a motor vehicle may, without the patient’s informed consent, report the patient’s name and other information to the Department of Transportation. Physicians are exempted from civil liability for reporting, or not reporting, this information in good faith.

5. Under laws relating to communicable diseases:
   a. The Department of Health Services (DHS) may order an individual who has a confirmed diagnosis of infectious tuberculosis or symptoms indicative of tuberculosis confined to a facility if several conditions are met, including notifying a court of the confinement and providing to the court a physician’s written statement affirming the tuberculosis or symptoms.
   b. If a court orders confinement of an individual with infectious tuberculosis or symptoms indicative of tuberculosis, the individual must remain confined until DHS or a local health officer, with the concurrence of a treating physician, determines that treatment is complete or that the individual is no longer a public health threat.
   c. If, following a request by an officer of DHS or a local health officer, a person reasonably suspected of being infected with a sexually transmitted disease refuses or neglects examination by a physician or treatment, the DHS officer or local health officer may have the person committed to an institution for examination, treatment, or observation.
   d. If a person with a sexually transmitted disease ceases or refuses treatment before reaching what is in a physician’s opinion the noncommunicable stage, the physician must notify DHS and the person may be committed by a court for examination or treatment.
   e. If a physician has reported to DHS a case of sexually transmitted disease, information regarding the disease and its treatment is not privileged before a court.
   f. The State Laboratory of Hygiene must examine specimens for the diagnosis of sexually transmitted disease for any physician or local health officer and must report positive results to the local health officer and DHS.
SENATE BILL 421

g. If a local health officer or DHS officer requires it, a person who is employed in the handling of food products or is suspected of having a disease in a form that is communicable by food handling must submit to an examination by the officer or by a physician.

6. Under occupational regulation laws relating to physical therapists, a physical therapist may practice only on the written referral of a physician, chiropractor, dentist, or podiatrist, except under certain conditions, including providing services to an individual for a previously diagnosed medical condition after informing the individual’s physician, chiropractor, dentist, or podiatrist.

7. Under occupational regulation laws relating to podiatrists, a podiatrist who renders chargeable services to, among others, a patient or physician, must render a statement of the charge directly to the person served.

8. Under laws relating to the practice of pharmacy, current law does the following:

   a. Defines the term “practice of pharmacy” to include making therapeutic alternate drug selections in accordance with written guidelines or procedures approved by a hospital and by a physician for his or her patients for a hospital stay.

   b. Provides that information communicated to a physician in an effort unlawfully to procure a prescription drug is not privileged communication.

   c. Requires the enforcement of prescription drug laws that apply to physicians to be the responsibility of the Department of Regulation and Licensing and the Medical Examining Board.

   d. Exempts pharmacists from requirements that they provide certain information when dispensing a drug product equivalent, if the patient is in a hospital and the drug product equivalent is dispensed in accordance with guidelines approved by, among others, the patient’s physician.

Currently, an advanced practice nurse prescriber may act in the same manner physicians may act in the instances specified above.

This bill expands the current laws described above that authorize physicians to act under specified circumstances and to affect individuals by these authorized actions, by similarly authorizing individuals licensed as physician assistants.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

health. If the individual is to be confined for more than 6 months, the court shall
review the confinement every 6 months.

SECTION 12. 252.11 (2) of the statutes is amended to read:
252.11 (2) An officer of the department or a local health officer having
knowledge of any reported or reasonably suspected case or contact of a sexually
transmitted disease for which no appropriate treatment is being administered, or of
an actual contact of a reported case or potential contact of a reasonably suspected
case, shall investigate or cause the case or contact to be investigated as necessary.
If, following a request of an officer of the department or a local health officer, a person reasonably suspected of being infected with a sexually transmitted disease refuses or neglects examination by a physician, physician assistant, or advanced practice nurse prescriber or treatment, an officer of the department or a local health officer may proceed to have the person committed under sub. 252.11 (5) Any court of record may commit a person infected with a sexually transmitted disease to any institution or may require the person to undergo a system of care for examination, treatment, or observation if the person ceases or refuses examination, treatment, or observation under the supervision of a physician, physician assistant, or advanced practice nurse prescriber. The court shall summon the person to appear on a date at least 48 hours, but not more than 96 hours, after service if an officer of the department or a local health officer petitions the court and states the facts authorizing commitment. If the person fails to appear or fails to accept commitment without reasonable cause, the court may cite the person for contempt. The court may issue a warrant and may direct the sheriff, any constable,
or any police officer of the county immediately to arrest the person and bring the
person to court if the court finds that a summons will be ineffectual. The court shall
hear the matter of commitment summarily. Commitment under this subsection
continues until the disease is no longer communicable or until other provisions are
made for treatment that satisfy the department. The certificate of the petitioning
officer is prima facie evidence that the disease is no longer communicable or that
satisfactory provisions for treatment have been made.

If the department receives an application for a renewal or duplicate license after voluntary surrender under s. 343.265 or receives a report from a physician, physician assistant, as defined in s. 448.01 (6), advanced practice nurse prescriber certified under s. 441.16 (2), or optometrist under s. 146.82 (3), or if the department has a report of 2 or more arrests within a one-year period for any combination of violations of s. 346.63 (1) or (5) or a local ordinance in conformity with s. 346.63 (1) or (5) or a law of a federally recognized American Indian tribe or band in this state in conformity with s. 346.63 (1) or (5), or s. 346.63 (1m), 1985 stats., or s. 346.63 (2) or (6) or 940.25, or s. 940.09 where the offense involved the use of a vehicle, the department shall determine, by interview or otherwise, whether the operator should submit to an examination under this section. The examination may consist of an assessment. If the examination indicates that education or treatment for a disability, disease or condition concerning the use of alcohol, a controlled substance or a controlled substance analog is appropriate, the department may order a driver safety plan in accordance with s. 343.30 (1q). If there is noncompliance with
assessment or the driver safety plan, the department shall revoke the person’s
operating privilege in the manner specified in s. 343.30 (1q) (d).
