Analysis by the Legislative Reference Bureau

This bill creates a property tax credit for business expansion within a municipality. The credit is equal to the amount determined by multiplying the school tax rate by the estimated fair market value of improvements to real property and acquisitions of personal property made by owners of commercial or manufacturing property. The credit only applies to improvements and acquisitions that are made as part of a business expanding in the municipality and the business employs at least ten more employees than it did three months prior to applying for the credit. The credit may be claimed for two years.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
