ASSEMBLY BILL 11

October 11, 2011 – Introduced by COMMITTEE ON ASSEMBLY ORGANIZATION, by request of Governor Scott Walker, Representative Petrowski, and Senator Lazich. Referred to Committee on Transportation.

AN ACT to amend 348.25 (3), 348.25 (4) (intro.), 348.25 (8) (b) 3. (intro.), 348.25 (8) (d), 348.27 (1) and 348.28 (1); and to create 348.25 (8) (b) 4., 348.27 (18) and 348.29 of the statutes; relating to: annual or consecutive month permits for certain overweight vehicles or vehicle combinations transporting agricultural products.

Analysis by the Legislative Reference Bureau

Under current law, with limited exceptions, no person may operate on a highway any vehicle or combination of vehicles that exceeds certain statutory weight limits unless the person obtains a permit issued by the Department of Transportation (DOT) or a local authority, as applicable. With exceptions, a permit may not be issued for transporting oversize loads if the load can be reasonably divided or reduced to comply with statutory limits.

This bill allows DOT to issue overweight permits for vehicles or vehicle combinations (vehicles) that have six or more axles and that are transporting certain agricultural products to a farm or from a field or farm to a storage or initial processing facility. The agricultural products that may be transported under the permit include fruit, vegetables, grain, and livestock, but exclude milk and raw forest products. The permit does not authorize the operation of any vehicle at a maximum gross weight in excess of 90,000 pounds. If the route over which the agricultural products are transported involves highways that are not state trunk highways, the permit application must be accompanied by a written statement of route approval by the
officer in charge of maintenance of the local highway. The permit is not valid on an
interstate highway unless operation of the vehicle on the interstate highway is
allowed under federal law. Permit applications must be made electronically to DOT
utilizing an electronic process prescribed by DOT. DOT may issue these permits
regardless of whether the load being transported is divisible.

The bill further specifies that, as with all other vehicle size or weight permits,
if DOT issues an agricultural emergency permit or farm machinery permit, the
permit must be carried on the vehicle during operation.

Under current law, if any bill introduced in either house of the legislature
directly or indirectly establishes an exception to vehicle weight limitations, DOT
must prepare a report, containing specified information, relating to the bill within
six weeks after the bill is introduced and before any vote is taken on the bill. This
bill directs DOT not to prepare such a report on this bill because DOT recently
completed the Wisconsin Truck Size and Weight Study that contained the same or
similar information that would be contained in a report on this bill.

For further information see the state and local fiscal estimate, which will be
printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do
enact as follows:
