Subject: Drafting Request

Jeff-

I'm sure you're busy with budget drafting, but if at all possible, we would like to get the following drafted ASAP.

1. Create a one-time biennial appropriation consisting of the amounts in the appropriations schedule, from the general fund, to be used exclusively for the purpose of paying interest due on outstanding loans from the federal government that have been used to stabilize the unemployment trust fund. The idea is that this GPR appropriation would replace the Special Assessment for Interest (SAFI) that has been assessed on Wisconsin employers over the past two years. The moneys in the schedule under this appropriation may be used at any time over the biennium for which they were appropriated, and at the end of that given biennium, any unencumbered amounts remaining in this appropriation are to lapse back to the general fund.
2. For the 2013-15 biennium, the amount appropriated under #1 should be \$26 million.

Feel free to contact me with any questions related to this request. DWD legal counsel, Janell Knutson (608-266-1639) is also familiar with this request.

Thanks,

Lucas Moench

PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION

Gen Cat

1 AN ACT...; relating to: payment of interest on advances made by the federal
2 government to the unemployment reserve fund and making an appropriation

Analysis by the Legislative Reference Bureau

Currently, if in any year the balance in the unemployment reserve fund is insufficient to make full payment of unemployment insurance benefits that become payable to claimants for that year, the Department of Workforce Development (DWD) secures an advance from the federal unemployment account to enable this state to make full payment of all benefits that become payable. Whenever the balance in the unemployment reserve fund is sufficient to repay the federal government for its advances and to continue to make payment of the benefits that become payable, DWD repays the federal government for its outstanding advances. Annually, the federal government assesses interest to this state on this state's outstanding advances that have not been repaid. Currently, if in any year DWD is unable to make full payment of the interest that becomes due from certain other limited sources, each employer must pay an assessment to the state unemployment interest payment fund in an amount specified by law sufficient to enable DWD to make full payment of the interest due for that year.

This bill creates a one-time appropriation in the amount of \$26,000,000 from general purpose revenues to pay any interest that becomes due to the federal government prior to July 1, 2015, on outstanding advances made to the unemployment reserve fund. Under the bill, if the amount appropriated, together with other available sources, is insufficient to make full payment of the interest that becomes due for any year, each employer must pay an assessment in the amount

determined by DWD sufficient to cover the deficiency. If any unencumbered balance remains in the appropriation account created by the bill at the end of the 2013-15 fiscal biennium, the balance lapses to the general fund.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

Jeff-

One change that we would like made to LRB 1636/1. Under the draft, when the department makes interest payments to the federal government, it would first draw on unencumbered monies that currently exist in the interest payment fund, and second draw on monies in the appropriation created in Section 1 of the bill. We would like the re-draft to switch this order. When making interest payments after the effective date of the bill, the department should draw first from the appropriation created by the bill. Only after the appropriated \$26 million has been spent should the department proceed with the spending of other unencumbered funds in the interest account.

Let me know if you have any questions.

Whenever the balance in the unemployment reserve fund is sufficient to repay the federal government for its advances and to continue to make payment of the benefits that become payable, DWD repays the federal government for its outstanding advances. Annually, the federal government assesses interest to this state on this state's outstanding advances that have not been repaid. Currently, if in any year DWD is unable to make full payment of the interest that becomes due from certain other limited sources, each employer must pay an assessment to the state unemployment interest payment fund in an amount specified by law sufficient to enable DWD to make full payment of the interest due for that year.

This bill creates a one-time appropriation in the amount of \$26,000,000 from general purpose revenues to pay any interest that becomes due to the federal government prior to July 1, 2015, on outstanding advances made to the

DWD must first use any available moneys from this appropriation to make payment of the interest due for any year. If

unemployment reserve fund. Under the bill, ~~the~~ the amount appropriated, together with other available sources, is insufficient to make full payment of the interest that becomes due for any year, each employer must pay an assessment in the amount determined by DWD sufficient to cover the deficiency. If any unencumbered balance remains in the appropriation account created by the bill at the end of the 2013-15 fiscal biennium, the balance lapses to the general fund.
