3             rule-making authority, and making an appropriation.

### ***Analysis by the Legislative Reference Bureau***

Currently, the state has established two hotlines that receive reports from individuals who suspect fraudulent activity in state programs. The Legislative Audit Bureau administers the first hotline to receive reports of fraud, waste, and mismanagement in state government. The office of the inspector general in the Department of Health Services maintains the second hotline to receive reports on suspected fraudulent activity in public assistance programs.

Under this bill, the Department of Administration (DOA) must establish an incentive program, by rule, for individuals who report suspected fraudulent activity or agency mismanagement to an existing fraud hotline or to any other fraud hotline established by a state agency. The incentive program established by DOA must include a reward payment of up to 5 percent of the amount of state funds that are recovered or saved as the result of a report to the individual who made the report that led to the recovery or savings.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
