Aaron-

Could you have this amendment drafted for SB 305? I thought we had addressed this in an updated draft, but I guess not.

Let me know if you have any questions.

Jeff,

Here is the amendment language adopted by the Assembly on a number of the license plate bills. Aaron Gary at LRB has worked on this issue from the start, so he should be well-versed in where you'd like to end up on this.

Do not hesitate to let me know if you have any questions.

Can you please send the stripes back for LRBa1857?

I think Derek wants to see the \$11,800 figure on p. 4, line 25 replaced with the figure \$23,700. You had initially given me the number of \$11,800 after talking to DOT, and \$11,800 is much closer to DOT's actual fiscal estimate of \$9,000, but \$23,700 is the number used in the amendment you forwarded (LRBa0844, AA1 to AB244) and is the number that I guess DOT wants to see in these bills. Because of the "whichever is less" language, it probably doesn't make much difference.

Aaron-

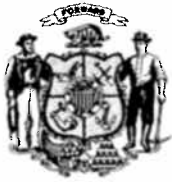

I just spoke with Derek and he wants to make one more change to the amendment – we want to include language that says the cost will \$23,000 or the actual cost of production, what ever is lower.

I think we had something like that in the original...just want to make sure it's covered in the amendment.

Thanks-
