The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

SECTION #.

1   information system, a school and school district accountability system,

2   low-performing schools and school districts, and charter school contracts.

Analysis by the Legislative Reference Bureau

STUDENT INFORMATION SYSTEM

Current law directs the Department of Public Instruction (DPI) to develop a proposal for a multiple-vendor student information system (SIS). DPI must submit the proposal to the Joint Committee on Finance (JCF) for its approval. If JCF approves the proposal, DPI must implement it and must ensure that information about pupils enrolled in charter schools and about pupils enrolled in private schools participating in a parental choice program (PCP) is collected and maintained in the SIS. Current law also provides that if the SIS is established, DPI must ensure that within five years, every school district and every charter school is using the SIS, and that every private school participating in a PCP is either using the SIS or is using a system that is interoperable with the SIS. Current law authorizes DPI to promulgate rules establishing a fee for use of the SIS.

This bill provides that if the SIS is established, DPI must ensure that within five years, every school district and every charter school, other than an independent charter school, is using the system. The bill also provides that, beginning in the 2014-15 school year, DPI must ensure that every independent charter school and every private school participating in an SIS is either using the SIS or is using a system that is commercially available, capable of providing the information required, able to obtain pupil identification numbers, and compatible with the most recent version of the Schools Interoperability Framework.

The bill allows DPI to charge a fee for using the SIS only if JCF approves.

Finally, the bill specifies that a private school participating in a PCP is not required to include in the SIS it is using information about pupils who are not attending the private school under the PCP.

SCHOOL AND SCHOOL DISTRICT ACCOUNTABILITY

Current law directs DPI, annually by September 1, to publish a school and school district accountability report that includes the following components:

1. Multiple measures to determine a school's performance or a school district's improvement, including pupil achievement and growth in reading and mathematics; measures of college and career readiness; and gaps in pupil achievement and graduation rates categorized by various factors.

2. An index system to identify a school's level of performance and annually place each school into one of five performance categories.

Current law provides that one year after an independent charter school or a private school participating in a PCP begins using the SIS or a system that is interoperable with the SIS, DPI must include the school in its school accountability report.

This bill eliminates all of the above provisions and establishes a school and school district accountability system, initially effective in the 2014-15 school year,

Adam:

I did not include in the ~~This~~ draft ~~even not exempt choice schools the~~ an exemption for choice schools from the common core standards because ~~nothing in~~ current law does not require ~~the~~ choice schools to adopt the common core standards.

In fact, as you are probably aware, the budget act prohibits DPI from taking any further action to implement the common core standards with respect to public schools.

If you have questions or need more information please let me know.
