~~PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION~~ C

2013 SENATE JOINT RESOLUTION

1 **Relating to:** chronic obstructive pulmonary disease month.

Awareness

2 Whereas, chronic obstructive pulmonary disease (COPD), also known as
3 chronic bronchitis and emphysema, is a serious lung disease that, over time, makes
4 it difficult to breathe; and

5 Whereas, because the disease develops slowly and gradually worsens, many ^{people}
6 delay seeking diagnosis and treatment until the disease reaches its late stages; and

7 Whereas, risk factors for the disease include a history of smoking, long-term
8 exposure to second ^{hand} smoke, and exposure to certain chemicals, dust, or fumes
9 in the workplace; and

10 Whereas, COPD is now the third leading cause of death in America, affecting
11 one in five adults over the age of 45 in the United States, and more than 234,700 in
12 the State of Wisconsin; and

1 Whereas, the death rate ^{for} ^{of} women with COPD has recently surpassed the
 2 death rate of men with COPD, and women over the age of 40 are the fastest-growing
 3 segment of the population developing this irreversible disease; and

4 Whereas, early diagnosis and treatment is possible with the help of a simple
 5 breathing test called spirometry; and

6 Whereas, the citizens of Wisconsin should take steps to fight this debilitating
 7 disease by learning more about COPD and talking with their health care provider^s
 8 about early detection; now, therefore, be it

9 ***Resolved by the senate, the assembly concurring, That*** the legislature
 10 proclaims November 2014 as chronic obstructive pulmonary disease awareness
 11 Month.
