Hi Tamara:

Sen. Erpenbach would like to have some amendments drafted on SB 206 and they need to be done ASAP as it is scheduled for the floor tomorrow morning.

Thanks!

1. Require that the ultrasound technician who performs the mandatory ultrasound be certified.

Amendment technician certification: Require that all "person who is qualified to perform an ultrasound" satisfy core competency requirements and continued competency requirements. Successful completion of an accredited course that offers training in obstetric ultrasound, including continued medical education related to ultrasound techniques. Individuals must meet educational and experiential requirements and obtain regular continuing medical education in their field. An individual remains certified regardless of where he or she is employed.
