Analysis by the Legislative Reference Bureau

Current law prohibits a person from operating, or causing injury or death to a person by operating, a vehicle, including an all-terrain vehicle, snowmobile, or boat, while under the influence of an intoxicant. Current law also prohibits a person from causing injury or death to a person by operating a firearm or airgun while under the influence of an intoxicant. Current law defines an “intoxicant” as any alcohol beverage, controlled substance, controlled substance analog or other drug, or any combination thereof.

This bill broadens the definition of “intoxicant” to include a substance that is inhaled, ingested, or otherwise consumed in a manner that is contrary to its intended use or labelling, and that is inhaled, ingested, or otherwise consumed to induce intoxication or elation, to stupefy the central nervous system, or to change the human audio, visual, or mental processes.
