Analysis by the Legislative Reference Bureau

Currently, minority-owned businesses and disabled veteran-owned businesses that are certified by the Department of Administration (DOA) receive certain preferences in governmental procurement. Under current law, state agencies must attempt to ensure that they pay minority-owned businesses 5 percent of the total amount expended for state procurements or certain state construction projects in each fiscal year and must make efforts to ensure that they pay disabled veteran-owned businesses a portion of the total amount expended for state procurements or certain state construction projects in each fiscal year. Under this bill, state agencies must attempt to ensure that they pay disabled veteran-owned

SENATE BILL 370

businesses at least 1 percent of the total amount expended for state procurements or certain state construction projects in each fiscal year. This requirement also applies to highway construction, maintenance, and engineering procurements by the Department of Transportation and to the Investment Board's procurements of investment analysis and brokerage services.

Under current law, certain metropolitan sewerage commissions (commissions) must attempt to ensure that 5 percent of the total funds expended for financial and investment analysis and for common stock and convertible bond brokerage commissions in each fiscal year is expended for the services of minority-owned financial advisers or minority-owned investment firms. Current law contracting provisions that apply to special purpose districts (local exposition districts, professional baseball park districts, professional football stadium districts, and cultural arts districts) also contain provisions that relate to the hiring of and contracting with minorities and women.

Generally, persons awarded contracts for local exposition districts must agree that at least 25 percent of the employees hired because of the contracts will be minority group members; at least 5 percent of the employees hired will be women; at least 25 percent of the aggregate dollar value of certain contracts will be awarded to minority businesses; and at least 5 percent of the aggregate dollar value of certain contracts will be awarded to women's businesses. In the case of the other special purpose districts, the minority and women contracting provisions are goals, which generally include the same participation percentages, except that the participation percentages for minority group members is 15 percent for football stadium districts and cultural arts districts. Similar preferences exist under current law in awarding these local government contracts or orders to disabled veteran-owned businesses certified by DOA, except that current law does not create any goals for the number of persons hired or total amounts or percentages of contracts or orders to be awarded to these businesses.

With regard to contracts let by commissions and special purpose districts, this bill sets a goal to ensure that at least 1 percent of the persons hired under the contracts, the dollar value of contracts let, and the amount of funds spent for certain financial transactions shall go to disabled veteran-owned businesses in each fiscal year.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
