1 AN ACT to renumber and amend 961.335 (1); to amend subchapter III (title)  
2 of chapter 961 [precedes 961.31]; and to create 66.0437, 440.255, 450.01 (23)  
3 (n), 450.01 (23) (o), 450.115, 961.32 (2) (e), 961.335 (1) (c) 1. and 2. and 961.337  
4 of the statutes; relating to: programs for the disposal of drugs, including  
5 controlled substances, and certain medical or drug-related items, and the  
6 regulation of prescription drugs.

**Analysis by the Legislative Reference Bureau**

Under current law, a person may not, and it is often a crime to, deliver, receive, or possess certain drugs unless the person is a licensed pharmacist or other licensed practitioner or has a valid prescription for the drug.

Under this bill, the Department of Safety and Professional Service (DSPS) may authorize the operation of drug disposal programs in this state to receive, for destruction, drugs, including prescription drugs, controlled substances and controlled substance analogs, and certain medical and drug delivery devices (collectively, pharmaceutical items). DSPS may authorize a person to operate a drug disposal program if, among other things, the person demonstrates to the satisfaction of DSPS that the program's receipt of pharmaceutical items will comply with federal and state laws applicable to the transportation and delivery of pharmaceutical items. The bill requires a drug disposal program to adopt policies and procedures that describe in detail the place and manner of the program's operation, provide the

**BILL**

24-hour contact information for at least one person in this state who is responsible for the program, and ensure compliance with applicable state and federal laws. ~~DSPS~~ must approve the policies and procedures before a drug disposal program may begin operation.

The bill also provides that a city, village, town, or county (political subdivision) may operate or authorize another person to operate a drug disposal program within the political subdivision's borders. A drug disposal program that a political subdivision operates or authorizes must adopt policies and procedures similar to those described above, but the program need not obtain approval from ~~DSPS~~. However, without ~~DSPS~~ approval, the program may not receive pharmaceutical items except by means of in-person delivery within the political subdivision's borders.

Finally, the bill authorizes a person who lawfully possesses a prescription drug, or the person's guardian, trustee, or personal representative, to grant written authorization to certain other persons to destroy the prescription drug. Under the bill, such a written authorization is only valid if the authorization satisfies certain conditions, including that the authorization describes the prescription drug with reasonable specificity and that the authorization and the prescription drug were obtained by the person authorized to destroy the prescription drug without the payment of money or something else of value.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The bill also provides that a city, village, town, or county (political subdivision) may operate or authorize another person to operate a drug disposal program within the political subdivision's borders. A drug disposal program that a political subdivision operates or authorizes must adopt policies and procedures similar to those described above, but the program need not obtain approval from DOJ. However, without DOJ approval, the program may not receive pharmaceutical items except by means of in-person delivery within the political subdivision's borders.

Finally, the bill authorizes a person who lawfully possesses a prescription drug, or the person's guardian, trustee, or personal representative, to grant written authorization to certain other persons to destroy the prescription drug. Under the bill, such a written authorization is only valid if the authorization satisfies certain conditions, including that the authorization describes the prescription drug with reasonable specificity and that the authorization and the prescription drug were obtained by the person authorized to destroy the prescription drug without the payment of money or something else of value.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
