

2013 ASSEMBLY BILL 644

January 21, 2014 – Introduced by Representative NYGREN, cosponsored by Senator DARLING. Referred to Committee on Ways and Means.

- 1 **AN ACT to create** 77.585 (11) of the statutes; **relating to:** sales tax bad debt
2 return adjustments for private label credit card bad debt.

Analysis by the Legislative Reference Bureau

Under current law, for sales tax purposes, a seller may claim on a sales tax return a deduction for the amount of any bad debt that the seller writes off as uncollectible in the seller's books and records, if the amount may be deducted as bad debt for federal income tax purposes, regardless of whether the seller must file a federal income tax return.

Under this bill, a lender who extends credit through a private label credit card, dual purpose credit card, or dealer credit program, may enter into an agreement with a seller so that the seller, the lender, or the lender's affiliate may claim a deduction or a refund for bad debt. A private label credit card is any credit card that identifies a seller's name or logo on the card and that may be used only for purchases from that seller or from any of the seller's affiliates or franchisees. A dual purpose credit card is a credit card that may be used as a private label credit card or to make purchases from persons other than the seller whose name or logo appears on the card. A dealer credit program is an arrangement for extending credit for a specific purchase from a seller.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
