Hi Cathlene,

Mike just wants to add to the amendment you already drafted. Create an additional paragraph that says that in the event that the federal food and drug administration removes cannabidiol from the schedules of controlled substances, the investigational drug permit would not be necessary.

I'm also calling New York to see how they are getting their marijuana for their recently announced medical marijuana program.

Thank you!

Laura

Cathlene,

I discussed the amendment to AB 726 with Laura Rose. We think it may be wise to modify the amendment slightly to take into account potential changes in federal law/rules that could conceivably make FDA permit unnecessary. Laura had some ideas. Can you check with her and draft an amendment similar to LRBA1709 but with this modification?

Thank you.
