Hi Steve and Emily,

Senator Grothman signed off on the language for the draft. Emily would you request it be put into introducible form and ask the drafter to draft a Senate version and release to us? Thanks!

Also, Glenn would prefer that we call the members on the previous bill (AB 139/SB 137) and ask them if they'd like to resign on our bill. Then we can speed up the process. Glenn would like to get in on the floor of the Senate in February. Emily, I'll call the Senate if you call the Assembly. We'll confer once we've gotten all the responses and put together our list and then hopefully be able to introduce tomorrow.

Then it will come down to which committee it will go to in the Assembly. Steve, you seem to have been down that trail a bit. Let me know once a resolution has been met there. Once we receive the bill in our Senate Committee, we'll get it moving.

Thanks for all your help! Now comes the easy part, right? 4 committee meeting, 2 floor votes, 3 weeks... ready? GO!

Sincerely,

Adam Gibbs

1 AN ACT *to renumber and amend* 448.695 (1); and *to create* 446.02 (11), 446.08,
2 447.02 (2) (f), 447.40, 448.695 (1) (b), 448.697 and 449.25 of the statutes;
3 **relating to:** a duty of podiatrists, chiropractors, dentists, and optometrists to
4 inform patients of treatment options and granting rule-making authority.

Analysis by the Legislative Reference Bureau

Under Wisconsin's physician informed consent law, a physician who treats a patient has a duty to inform the patient about treatment options. A physician who fails to so inform a patient about modes of treatment may be held civilly liable for damages under tort law. This common law duty, as it relates to physicians, has been codified as a statutory duty.

In the case *Hannemann v. Boyson*, 2005 WI 94, the Wisconsin Supreme Court wrote that this duty to inform a patient about treatment options was not necessarily limited to physicians, and the court held in *Hannemann* that a chiropractor had such a duty to inform a patient. The duty, as it relates to chiropractors or any other types of health care professionals other than physicians, has not previously been codified as a statutory duty.

2013 Wisconsin Act 111 modified the codified duty of physicians to inform a patient about treatment options in a number of ways, including: 1) providing that the "reasonable physician standard," as defined in the act, is the standard for informing a patient and 2) providing that the physician's duty does not require the disclosure of information about alternate medical modes of treatment for any

BILL

condition the physician has not included in his or her diagnosis at the time the physician informs the patient.

This bill codifies into the statutes a similar duty to inform a patient about treatment options with respect to the following types of health care professionals: 1) chiropractors; 2) dentists; 3) podiatrists; and 4) optometrists.

Specifically, the bill provides that any chiropractor, dentist, podiatrist, or optometrist who treats a patient must inform the patient about the availability of reasonable alternate modes of treatment and about the benefits and risks of these treatments. The bill provides that the reasonable chiropractor, dentist, podiatrist, or optometrist standard, whichever is applicable, is the standard for informing a patient under that duty. The bill provides that this standard requires disclosure only of information that a reasonable chiropractor, dentist, podiatrist, or optometrist would know and disclose under the circumstances. The bill provides that a chiropractor's, dentist's, podiatrist's, or optometrist's duty to so inform the patient does not require disclosure of any of the following:

1) Detailed technical information that in all probability a patient would not understand.

2) Risks apparent or known to the patient.

3) Extremely remote possibilities that might falsely or detrimentally alarm the patient.

4) Information in emergencies where failure to provide treatment would be more harmful to the patient than treatment.

5) Information in cases where the patient is incapable of consenting.

6) Information about alternate modes of treatment for any condition the chiropractor, dentist, podiatrist, or optometrist has not included in his or her diagnosis at the time the chiropractor, dentist, podiatrist, or optometrist informs the patient.

Also under current law, the Medical Examining Board must promulgate rules implementing the physician's duty to inform a patient about treatment options, as codified into the statutes. This bill similarly requires the Chiropractic Examining Board, the Dentistry Examining Board, the Podiatry Affiliated Credentialing Board, and the Optometry Examining Board to promulgate rules implementing the chiropractor's, dentist's, podiatrist's, and optometrist's duties to inform a patient about treatment options, as those duties are codified into the statutes by the bill.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
