

Fiscal Estimate Narratives

GAB 5/13/2013

LRB Number	13-0665/1	Introduction Number	SB-163	Estimate Type	Original
Description Legislative and congressional redistricting					

Assumptions Used in Arriving at Fiscal Estimate

This bill would create a redistricting advisory commission to provide direction to the legislative reference bureau in preparing a redistricting plan, conduct public hearings, and submit a summary of public testimony to the legislature. The commission would consist of five members, four of whom would be appointed by legislative leaders, who shall choose the fifth member. The bill disqualifies certain persons from membership on the advisory commission. Names of the commission members are certified to the director and general counsel of the government accountability board. The bill does not require the government accountability board to confirm that appointees are qualified to serve on the commission and does not require any action by the government accountability board.

Long-Range Fiscal Implications
