Assumptions Used in Arriving at Fiscal Estimate

Prosecutors did not reach agreement on how enactment of this bill would affect their offices. One DA believes the bill will increase the number of filings on this statute, consequently leading to an increase in workload and need for additional prosecutors. Other DAs, however, believe that enactment of the bill will have only a minor effect on their offices. Due to the lack of agreement on the effect of this bill, no fiscal estimate has been calculated.

Long-Range Fiscal Implications
