4 improvement trust fund.

Analysis by the Legislative Reference Bureau

This bill authorizes a school board that has approved a long-term capital improvement plan that is for a minimum of 10 years to establish a trust fund for the purpose of financing the capital improvements included in the long-term plan. The bill prohibits a school board from spending any money deposited in the trust fund for a period of five years from the date the trust fund is created. After the initial five-year period, a school board may spend money in the trust fund only for the purposes described in the school board's long-term plan. Additionally, a school board is expressly prohibited from transferring money in the trust fund to any other school district fund. Finally, the bill specifies that, for purposes of calculating equalization aid, money deposited in a long-term capital improvement trust fund is counted as a shared cost at the time the money is deposited in the trust fund and is not a shared cost at the time the money is expended from the trust fund.
