## Fiscal Estimate Narratives

DOA 2/4/2015

LRB Number	15-0577/2	Introduction Number	SB-008	Estimate Type	Original
<b>Description</b> Regulation of raffles					

### Assumptions Used in Arriving at Fiscal Estimate

2015 SB 8 makes numerous changes to provisions regarding raffles. Under current law, a raffle is a game of chance in which tickets or calendars are sold and a drawing for prizes held, or for which a different method is used to determine a winner and that has been approved by the Department of Administration (alternate raffle). The winner of an alternate raffle must be determined by random selection with all participants having an equal opportunity to win. The Department is required to approve an alternate raffle that consists of flexible plastic or rubber ducks being used in a race.

Generally, charitable organizations may conduct raffles. Under rules promulgated by the Department of Administration (Department), an organization with a Class A raffle license may conduct single-event raffles or a calendar raffle. A calendar raffle is a raffle for which a drawing is held and a prize awarded on each date specified in a calendar. An organization with a Class B raffle license may conduct raffles in which more than one drawing may be made from more than one container, with each container specific to a prize or group of prizes, and ticket purchasers place tickets in their container of choice.

SB 8 makes the following changes to current statutory provisions:

- Removes the Department's authority to approve an alternate raffle.
- Requires that a raffle may not be conducted unless any winner is determined by a drawing with all tickets or calendars having an equal opportunity to win.
- Defines a drawing as a random selection of a ticket portion or calendar portion from a container housing all portions of tickets or calendars purchased for the selection or a plastic or rubber duck race.
- Removes current limits on raffle ticket prices. The current Class A limit is \$500 for a raffle ticket and up to \$10 for each month covered by a calendar raffle, and \$10 for a Class B ticket.
- Increases the number of raffles allowed during a 12-month period from 200 to 365.
- Allows tickets sold under a Class B raffle to be sold prior to the raffle if tickets are not delivered to purchasers until the day of the drawing.
- Increases the number of days prior to a raffle conducted under a Class A license during which tickets may be sold from 270 days to one year.
- Allows a Class A license to sell equal shares of a single ticket to one or more purchaser, only if not more than four shares of a single ticket be sold and no discount is offered to the purchaser.
- Requires the Department to issue a license within 30 days after the filing of a complete application and to notify an applicant within 15 days if an application is incomplete.
- Eliminates the requirement that licensees submit an annual report to the Department detailing the number of raffles conducted in the prior year and the related receipts and net profits. Licensees would still be required to prepare and make the report available for inspection; however the Department could request a copy of the report only upon receipt of a complaint regarding the conduct of a raffle.
- Removes the authority of the Department to promulgate rules regarding the conduct of raffles. Many provisions related to the administration of raffles that are currently codified by administrative rule would be added to Chapter 563, Wis. Stats.

Statutory provisions regarding raffles are administered by DOA. The Department does not anticipate a change in the number of raffle licenses resulting from SB 8. However, the Department estimates that SB 8 would result in one-time costs of \$14,400 to educate/communicate with licensees and prospective licensees regarding the new raffle provisions; update the charitable database program, and revise and re-print forms and documents, and that those costs could be absorbed.

### Long-Range Fiscal Implications

There are no long term costs associated with SB 8
