Assumptions Used in Arriving at Fiscal Estimate

SB-211 creates the Wisconsin Job Development and Retention Commission ("commission") within the Department of Workforce Development and directs the commission to promulgate rules ("rules") that would cause a person who operates or intends to operate a business in this state and who outsources work from this state to another state or country to be ineligible to receive any grants or loans from a state agency, tax exemptions, credits, deductions or exclusions for a period of five years following the year in which the commission determines that the person has outsourced work to another state or country.

Until the commission promulgates the rules for implementing and administering these provisions, the fiscal impact to WEDC is indeterminate.
