**Department of Children and Families
2015-17 Biennial Budget
Statutory Language Request**

Topic: Community Steering Committee

Current Language:

49.143(2)(a) Establish a community steering committee within 60 days after the date on which the contract is awarded. The Wisconsin works agency shall recommend the members of the committee to the chief executive officer of each county served by the Wisconsin works agency. The chief executive officer of each county shall appoint the members of the committee. The number of members that each chief executive officer appoints to the committee shall be in proportion to the population of that officer's county relative to the population of each other county served by the Wisconsin works agency, except that the chief executive officer of a county that is not a Wisconsin works agency shall appoint the director of the county department under s. 46.215, 46.22 or 46.23, or his or her designee, and one other representative of the county department under s. 46.215, 46.22 or 46.23. The committee shall consist of at least 12 members, but not more than 15 members. The members of the committee shall appoint a chairperson who shall be a person who represents business interests. The committee shall do all of the following:

1. Advise the Wisconsin works agency concerning employment and training activities.
2. Identify and encourage employers to provide permanent jobs for persons who are eligible for trial employment match program jobs or community service jobs.
3. Create, and encourage others to create, subsidized jobs for persons who are eligible for trial employment match program jobs or community service jobs.
4. Create, and encourage others to create, on-the-job training sites for persons who are eligible for trial employment match program jobs or community service jobs.
5. Foster and guide the entrepreneurial efforts of participants who are eligible for trial employment match program jobs or community service jobs.
6. Provide mentors, both from its membership and from recruitment of members of the community, to provide job-related guidance, including assistance in resolving job-related issues and the provision of job leads or references, to persons who are eligible for trial employment match program jobs or community service jobs.
7. Coordinate with the council on workforce investment established under 29 USC 2821 to ensure compatibility of purpose and no duplication of effort.
8. Work with participants, employers, child care providers and the community to identify child care needs, improve access to child care and expand availability of child care.
10. Identify motivational training programs, including programs that enhance parenting skills.

Proposed Change:

Amend Wis. Stat. §49.143(2)(a) as follows to allow W-2 agencies discretion with respect to the formation and functioning of CSCs, with the exception of tasks vital to the W-2 program and work participation rate compliance. Activities described in Wis. Stat. §49.143(2)(a)8 and 10 must be removed as options for consideration, as childcare and parenting deviate significantly

Justification:

W-2 agencies cannot comply with the provisions of the current statute regarding Community Steering Committees as written. Current statutory requirements mandate that the chief executive officer of each county appoint additional members to the Committee, such as local employers, administrators or educators for local technical colleges, Job Center staff, and other community leaders. The statute also limits membership to a maximum of 15 representatives. The language was fitting when the service delivery model was based on a single county administered W-2 contract; however, the Balance of State (BOS) agencies now serve upwards of eight counties across large geographical areas. The largest serves 42 counties.

Committees are also obligated to engage in tasks related to childcare and parenting, which deviates significantly from the scope of the business sector.

The statute requires the Committees to assist the W-2 agency to identify and address the employment, training, and supportive service needs of families within their communities. Committees have the potential to play an integral role in the attainment of the work participation rate through fostering strong relationships with the local community business sector to create employment and work experience opportunities for W-2 participants. However, the majority of W-2 agencies do not have Committees established as a result of their inability to adhere to the membership requirements.

More flexible language surrounding the Committee provisions will enable the creation of committees appropriate for the individual needs of each geographical area with respect to size, composition, and activities to support employment. Providing this discretion will ensure the Committees function to increase the focus on employment activities and have a positive impact on the work participation rate. The success of a number of strategies identified to increase the work participation rate hinge directly upon connections with local employers and community organizations. Failure to meet the work participation rate will result in a substantial fiscal penalty, thus this avenue to enhance engagement in work and work-like activities must be fully supported by statute.

Retaining the requirement but amending the statutory language is a strategy to increase Wisconsin's work participation rate. The suggested changes will put Committees in a position to increase productivity of W-2 agencies by creating and encouraging others to create employment and work experience opportunities. The Committees will be required to engage in activities necessary to comply with work participation rate standards and have the option to perform additional ventures that may be of benefit to participants. Although this task may first present as a challenge for certain agencies, the long-term benefits and contribution to the work participation rate attainment will outweigh the initial difficulties. The link between the W-2 agency and private businesses translates to an investment in the success of the individual participants, which is vital to compliance with the TANF program and work participation rate standards.

Hi Kim,

I have some questions to help clarify the Community Steering Committee drafting request. The proposed change deletes language that describes how committee members are appointed, but does not replace it with a new method. Would it be consistent with the draft's intent to have the W-2 agency appoint members?

Also, is it the intent of the request that the W-2 agency determine the number of members on a committee? Should the number be based on any factors or just up to the discretion of the agency? The proposal deletes a requirement that a committee have at least 12 but no more than 15 members, and therefore it could be as big or small as desired. Is this the intent or should there be a limit?

Finally, the proposal adds to subparagraph 7. that the committee must coordinate with the "local workforce development board" established under 29 USC 2821. However, that section, part of the Workforce Investment Act of 1998, establishes "state workforce investment boards." A different section, 29 USC 2832, establishes "local workforce investment boards" – is this the correct reference?

Thanks!

Kim,

A few more questions on this one.

1. It says that all counties must have representation. Is a county represented if a member of the business community in that county is appointed, or is it only if a member of a county department responsible for economic development is appointed?
2. Should all cities be represented as well? If not, is the decision to appoint a city representative up to the discretion of the W-2 agency?
3. I'm assuming that no W-2 agencies serve more than 20 counties – is that right?

Thanks!

I did get comments. Thanks for checking in with me. They were too late to ask for a redraft. But, since DOA is allowing us to still work with you, I will send them along. See below:

We have provided responses (in **bold**) following each of the drafter's questions:

1. The proposed change deletes language that describes how committee members are appointed, but does not replace it with a new method. Would it be consistent with the draft's intent to have the W-2 agency appoint members?

Yes, the intent is for the W-2 agency to appoint members to the Community Steering Committee. The agencies should appoint one member from a county or city department responsible for economic development or one member of the business community to the community steering committee per county.

2. Also, is it the intent of the request that the W-2 agency determine the number of members on a committee?

Yes, the intention is for the agency to determine the number of members on the committee, so long as the number of members is no greater than 20 and each county has a representative. Certain agencies will need to establish multiple CSCs to remain within these limits.

3. Should the number be based on any factors or just up to the discretion of the agency?

Yes, the number will be based on a minimal number of factors to afford agencies maximum flexibility. Each county must have one representative, but beyond this requirement, the agencies will have discretion regarding inclusion of additional members up to the 20-member maximum.

4. The proposal deletes a requirement that a committee have at least 12 but no more than 15 members, and therefore it could be as big or small as desired. Is this the intent or should there be a limit?

See prior response.

5. Finally, the proposal adds to subparagraph 7. that the committee must coordinate with the "local workforce development board" established under 29 USC 2821. However, that section, part of the Workforce Investment Act of 1998, establishes "state workforce investment boards." A different section, 29 USC 2832, establishes "local workforce *investment* boards" – is this the correct reference?

Yes, 29 USC 2832 is the correct reference; the state of Wisconsin uses "local workforce development board" rather than "local workforce investment board." The term "local workforce development board" is used in combination with the 29 USC 2832 referenced in Wisconsin statutes.

106.11 Workforce investment programs. The department shall cooperate with the federal government in carrying out the purposes of the federal Workforce Investment Act of 1998, 29 USC 2801 to 2945. In administering the programs authorized by that act the department shall, in cooperation with other state agencies and with local workforce development boards established under 29 USC 2832, establish a statewide workforce investment system to meet the employment, training, and educational needs of persons in this state. If a local workforce development board anticipates that there may be a business closing or mass layoff under s. 109.07 in the area served by that board, the board may prepare a list of resources available in that area that provide career planning, job search, job skills training, and other support services for affected employees, as defined in s. 109.07 (1) (a), including contact information for those resources, for distribution to those employees under s. 109.07 (1m) (a).

If you have any other questions about this, feel free to shoot me another email. Thanks again!

1. It says that all counties must have representation. Is a county represented if a member of the business community in that county is appointed, or is it only if a member of a county department responsible for economic development is appointed? **A county is represented if a member of the business community or a member of a county or city department responsible for economic development is appointed.**
2. Should all cities be represented as well? **No, all cities do not have to be represented.** If not, is the decision to appoint a city representative up to the discretion of the W-2 agency? **Yes.**
3. I'm assuming that no W-2 agencies serve more than 20 counties – is that right? **No. One W-2 agency serves 43 counties. That agency will need to have at least three CSCs in order to cover its geographical areas.**

Yes, the intention is for the agency to determine the number of members on the committee, so long as the number of members is no greater than 20 and each county has a representative. Certain agencies will need to establish multiple CSCs to remain within these limits.

3. Should the number be based on any factors or just up to the discretion of the agency?

Yes, the number will be based on a minimal number of factors to afford agencies maximum flexibility. Each county must have one representative, but beyond this requirement, the agencies will have discretion regarding inclusion of additional members up to the 20-member maximum.

4. The proposal deletes a requirement that a committee have at least 12 but no more than 15 members, and therefore it could be as big or small as desired. Is this the intent or should there be a limit?

See prior response.

5. Finally, the proposal adds to subparagraph 7. that the committee must coordinate with the "local workforce development board" established under 29 USC 2821. However, that section, part of the Workforce Investment Act of 1998, establishes "state workforce investment boards." A different section, 29 USC 2832, establishes "local workforce *investment* boards" – is this the correct reference?

Yes, 29 USC 2832 is the correct reference; the state of Wisconsin uses "local workforce development board" rather than "local workforce investment board." The term "local workforce development board" is used in combination with the 29 USC 2832 referenced in Wisconsin statutes.

106.11 Workforce investment programs. The department shall cooperate with the federal government in carrying out the purposes of the federal Workforce Investment Act of 1998, 29 USC 2801 to 2945. In administering the programs authorized by that act the department shall, in cooperation with other state agencies and with local workforce development boards established under 29 USC 2832, establish a statewide workforce investment system to meet the employment, training, and educational needs of persons in this state. If a local workforce development board anticipates that there may be a business closing or mass layoff under s. 109.07 in the area served by that board, the board may prepare a list of resources available in that area that provide career planning, job search, job skills training, and other support services for affected employees, as defined in s. 109.07 (1) (a), including contact information for those resources, for distribution to those employees under s. 109.07 (1m) (a).

Hi Kim,

I just wanted to follow up on the questions below because I don't think I've heard back from anyone yet.

Also, DOA has submitted its request for this draft and I have permission to discuss it with you. Should I proceed with this draft or just make these changes in the DOA draft?

Thanks!

Hi Kim,

I have some questions to help clarify the Community Steering Committee drafting request. The proposed change deletes language that describes how committee members are appointed, but does not replace it with a new method. Would it be consistent with the draft's intent to have the W-2 agency appoint members?

Also, is it the intent of the request that the W-2 agency determine the number of members on a committee? Should the number be based on any factors or just up to the discretion of the agency? The proposal deletes a requirement that a committee have at least 12 but no more than 15 members, and therefore it could be as big or small as desired. Is this the intent or should there be a limit?

Analysis by the Legislative Reference Bureau
HEALTH AND HUMAN SERVICES
WISCONSIN WORKS → **CHILDREN**

The Wisconsin Works (W-2) program under current law, which is administered by DCF, provides work experience and benefits for low-income custodial parents who are at least 18 years old. Also, an individual who is the parent of a child under the age of 13 or, if the child is disabled, under the age of 19, may receive a child care subsidy under the part of the W-2 program known as Wisconsin Shares if the individual needs child care services to participate in various education or work activities and satisfies other eligibility criteria.

Under current law, DCF contracts with a person (W-2 agency) to administer W-2 in a geographical area. Within 60 days of being awarded a W-2 contract, a W-2 agency is required to establish a community steering committee to focus on job creation, job training, and other employment-related services for persons who are eligible for trial employment match program jobs or community service jobs. Current law requires the W-2 agency to recommend members of the committee to the chief executive officer (CEO) of each county the agency serves. Generally, the CEO of each county appoints members to the committee in proportion to the population of that county relative to the population of each other county served by the W-2 agency. A committee must have no less than 12 and no more than 15 members.

X

members

Under this bill, a W-2 agency appoints the members of a community steering committee. The bill requires a W-2 agency to appoint to the committee, for each county the agency serves, either one representative of a county department responsible for economic development or one representative of a city department responsible for the economic development for a city that is in the county. The bill requires a W-2 agency to appoint at least one representative of business interests as a member of the committee. The bill also increases the maximum number of members on a committee to 20, allows a W-2 agency to establish more than one committee, and makes changes to some of the required activities of a committee.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

SECTION 1. 49.143 (2) (a) (intro.) of the statutes is amended to read:

49.143 (2) (a) (intro.) Establish ~~a~~ at least one community steering committee within 60 days after the date on which the contract is awarded signed. A Wisconsin Works agency must establish as many committees as necessary to allow the representation required under subd. 1m. on each committee without exceeding the maximum number of members under subd. 1m. All of the following apply to a community steering committee created under this paragraph:

1m. The Wisconsin works Works agency shall ~~recommend the members of the committee to the chief executive officer of each county served by the Wisconsin works agency.~~ The chief executive officer of each county shall appoint the members of the committee within the following parameters: ^{move to p. 3} The number of members that each chief executive officer appoints to the committee shall be in proportion to the population of that officer's county relative to the population of each other county served by the Wisconsin works agency, except that the chief executive officer of a county that is not a Wisconsin works agency shall appoint the director of the county department under s. 46.215, 46.22 or 46.23, or his or her designee, and one other representative of the

1 county department under s. 46.215, 46.22 or 46.23. The committee shall consist of
2 at least 12 members, but not more than 15 members. *inset from p. 2 here*

3 2m. The members of the committee shall appoint a chairperson who shall be
4 a person who represents business interests.

13 department responsible for economic development, of a city department responsible
14 for economic development for a city that is in that county, or of the business
15 community in that county. The Wisconsin Works agency shall appoint at least one
16 representative of business interests as a member of the committee.

****NOTE: Because the committee must appoint as a chairperson a member who represents business interests (see par. (a) 2m. below), I added that the W-2 agency is required to appoint at least one member who represents business interests to the committee. Ok?

Ok, sorry about that. One just says they agree with you, and on two and three we don't want to take the additional step to repeal because it would be a new policy change—can't do it to that extent under other current law provisions. So we just want to keep it as you have it now. To finalize this draft, do we need to remove the drafter's notes in it? If so, would you do that please? Thanks! k

Community Steering Committee Draft Comments

1. We agree with the drafter's decision to add that the agency is required to appoint at least one member who represents business interests to the committee (page 3, line 16).
2. While we agree with the drafter's decision to remove the reference to the community steering committee from Wis. Stat. s. 49.147(4)(at), we prefer the option to repeal Wis. Stat. s. 49.147(4)(at) altogether as it is no longer needed as an exception to par. (as). (page 5, line 18).

3. While we agree with the drafter's decision to remove the reference to the community steering committee from Wis. Stat. s. 49.147(5)(bt), we prefer the option to repeal Wis. Stat. s. 49.147(5)(bt) altogether as it is no longer needed as an exception to par. (bs). (page 6, line 5).

HEALTH AND HUMAN SERVICES

WISCONSIN WORKS

The Wisconsin Works (W-2) program under current law, which is administered by DCF, provides work experience and benefits for low-income custodial parents who are at least 18 years old. Also, an individual who is the parent of a child under the age of 13 or, if the child is disabled, under the age of 19, may receive a child care subsidy under the part of the W-2 program known as Wisconsin Shares if the individual needs child care services to participate in various education or work activities and satisfies other eligibility criteria.

Under current law, DCF contracts with a person (W-2 agency) to administer W-2 in a geographical area. Within 60 days of being awarded a W-2 contract, a W-2 agency is required to establish a community steering committee to focus on job creation, job training, and other employment-related services for persons who are eligible for trial employment match program jobs or community service jobs. Current law requires the W-2 agency to recommend members of the committee to the chief executive officer (CEO) of each county the agency serves. Generally, the CEO of each county appoints members to the committee in proportion to the population of that county relative to the population of each other county served by the W-2 agency. A committee must have no less than 12 members and no more than 15 members.

Under this bill, a W-2 agency appoints the members of a community steering committee. The bill requires a W-2 agency to appoint to the committee, for each county the agency serves, either one representative of a county department responsible for economic development or one representative of a city department responsible for the economic development for a city that is in the county. The bill requires a W-2 agency to appoint at least one representative of business interests as a member of the committee. The bill also increases the maximum number of members on a committee to 20, allows a W-2 agency to establish more than one committee, and makes changes to some of the required activities of a committee.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1 SECTION 1. 49.143 (2) (a) (intro.) of the statutes is amended to read:

2 49.143 (2) (a) (intro.) Establish ~~a~~ at least one community steering committee
3 within 60 days after the date on which the contract is awarded signed. A Wisconsin
4 Works agency must establish as many committees as necessary to allow the
5 representation required under subd. 1m. on each committee without exceeding the
6 maximum number of members under subd. 1m. All of the following apply to a
7 community steering committee created under this paragraph:

8 1m. The Wisconsin works Works agency shall ~~recommend the members of the~~
9 ~~committee to the chief executive officer of each county served by the Wisconsin works~~
10 ~~agency. The chief executive officer of each county shall appoint the members of the~~
11 ~~committee. The number of members that each chief executive officer appoints to the~~
12 ~~committee shall be in proportion to the population of that officer's county relative to~~
13 ~~the population of each other county served by the Wisconsin works agency, except~~
14 ~~that the chief executive officer of a county that is not a Wisconsin works agency shall~~
15 ~~appoint the director of the county department under s. 46.215, 46.22 or 46.23, or his~~
16 ~~or her designee, and one other representative of the county department under s.~~

WISCONSIN WORKS

The Wisconsin Works (W-2) program under current law, which is administered by DCF, provides work experience and benefits for low-income custodial parents who are at least 18 years old. Also, an individual who is the parent of a child under the age of 13 or, if the child is disabled, under the age of 19, may receive a child care subsidy under the part of the W-2 program known as Wisconsin Shares if the individual needs child care services to participate in various education or work activities and satisfies other eligibility criteria.

Under current law, DCF contracts with a person (W-2 agency) to administer W-2 in a geographical area. Within 60 days of being awarded a W-2 contract, a W-2 agency is required to establish a community steering committee to focus on job creation, job training, and other employment-related services for persons who are eligible for trial employment match program jobs or community service jobs. Current law requires the W-2 agency to recommend members of the committee to the chief executive officer (CEO) of each county the agency serves. Generally, the CEO of each county appoints members to the committee in proportion to the population of that county relative to the population of each other county served by the W-2 agency. A committee must have no less than 12 members and no more than 15 members.

Under this bill, a W-2 agency appoints the members of a community steering committee. The bill requires a W-2 agency to appoint to the committee, for each county the agency serves, either one representative of a county department responsible for economic development or one representative of a city department responsible for the economic development for a city that is in the county. The bill requires a W-2 agency to appoint at least one representative of business interests as a member of the committee. The bill also increases the maximum number of members on a committee to 20, allows a W-2 agency to establish more than one committee, and makes changes to some of the required activities of a committee.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
