EDUCATION

PRIMARY AND SECONDARY EDUCATION

Under current law, a school board may enter into a contract with a person to establish a charter school, which operates with fewer constraints than traditional public schools. Current law also permits UW-Milwaukee, UW-Parkside, the Milwaukee Area Technical College, and the city of Milwaukee to operate charter schools (independent charter schools) directly or to contract for the operation of such charter schools. Subject to certain exceptions, only pupils who reside in the school district in which an independent charter school is located may attend the charter school.

This bill creates the Charter School Oversight Board (CSOB), attached to DPI, and authorizes it to approve nonprofit, nonsectarian organizations, or consortia of such organizations, to contract with persons to operate independent charter schools. The CSOB consists of the state superintendent of public instruction and ten other members. Of the latter members, two are appointed by the state superintendent, two are appointed by the governor, and six by the leaders in the senate and assembly. The bill prohibits the CSOB from promulgating administrative rules and provides that any policy or standard adopted by the CSOB is exempt from the rule-making process.

For any charter school established on or after the bill's effective date, the bill eliminates the authority of the entities specified above, and of any approved

nonprofit organization, to establish an independent charter school directly. Under the bill, a charter school may be established only by contract and must be operated by a charter school governing board, although an existing independent charter school authorizer may continue to operate a charter school itself if the school is established before the effective date of this bill. The bill removes the restrictions that limit who may attend an independent charter school.

A nonprofit, nonsectarian organization or consortium of such organizations that wishes to contract with a charter school governing board to operate a charter school must apply to the CSOB. The application must include a strategic plan for such contracting; a performance framework for use in supervising and evaluating charter schools; an assurance that the organization or consortium will ensure accountability and transparency on the part of the governing boards with which it contracts; a plan, including corrective action strategies, designed to improve a charter school, or close such a school, that fails to meet contractual performance standards; a description of the types of charter schools it is seeking to establish; information on its finances; and a plan for entering into additional contracts in order to replicate successful charter schools. The CSOB must approve or deny an application within 90 days.

The bill provides that the contract between an authorizing entity and the independent charter school's governing board must allow the former to charge the governing board a fee. The contract must also allow the charter school governing board to open additional charter schools if in DPI's most recent school accountability report, DPI placed the charter school governed by the contract in one of the top two performance categories, which are currently known as "exceeds expectations" and "significantly exceeds expectations." The bill makes this provision applicable to existing contracts with independent charter schools as well.

The bill allows a charter school contract to provide for more than one charter school, and allows a charter school governing board to enter into more than one contract. The bill allows a school board to prohibit a pupil who resides in the school district from attending an independent charter school unless the school district's enrollment is at least 4,000 and at least two schools in the school district were in one of the bottom two performance categories, which are currently known as "meets few expectations" and "fails to meet expectations" in DPI's most recent school report.

The bill requires that a charter school accept pupils at random if the capacity of the school is insufficient to accept all applicants. A charter school must, however, give preference in enrollment to pupils who were enrolled in the school in the previous school year and to siblings of pupils who are enrolled in the school. In addition, the bill allows a charter school to give preference in enrollment to children of the charter school's founders, governing board members, and full-time employees so long as the number of such children given preference constitutes no more than 10 percent of the school's enrollment.

The bill requires each charter school authorizer to submit an annual report to the legislature and DPI that includes the following:

1. An identification of each charter school under contract with it and each charter school that had its contract nonrenewed or revoked or that closed.

2. The academic and financial performance of each charter school.
3. Its operating costs, detailed in an audited financial statement.
4. The services it provided to the charter schools under contract with it.

The bill directs each nonprofit organization or consortium that has been approved by the CSOB to contract with a charter school operator annually to submit an identical report to the CSOB.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

FOR 2015-2017 BUDGET – NOT READY FOR INTRODUCTION

1 AN ACT ...; relating to: the budget.

Analysis by the Legislative Reference Bureau

EDUCATION

PRIMARY AND SECONDARY EDUCATION

Under current law, a school board may enter into a contract with a person to establish a charter school, which operates with fewer constraints than traditional public schools. Current law also permits UW–Milwaukee, UW–Parkside, the Milwaukee Area Technical College, and the city of Milwaukee to operate charter schools (independent charter schools) directly or to contract for the operation of such charter schools. Subject to certain exceptions, only pupils who reside in the school district in which an independent charter school is located may attend the charter school.

This bill creates the Charter School Oversight Board (CSOB), attached to DPI, and authorizes it to approve nonprofit, nonsectarian organizations, or consortia of such organizations, to contract with persons to operate independent charter schools. The CSOB consists of the state superintendent of public instruction and ten other members. Of the latter members, two are appointed by the state superintendent, two are appointed by the governor, and six by the leaders in the senate and assembly. The bill prohibits the CSOB from promulgating administrative rules and provides that any policy or standard adopted by the CSOB is exempt from the rule-making process.

For any charter school established on or after the bill’s effective date, the bill eliminates the authority of the entities specified above, and of any approved

nonprofit organization, to establish an independent charter school directly. Under the bill, a charter school may be established only by contract and must be operated by a charter school governing board, although an existing independent charter school authorizer may continue to operate a charter school itself if the school is established before the effective date of this bill. The bill removes the restrictions that limit who may attend an independent charter school.

A nonprofit, nonsectarian organization or consortium of such organizations that wishes to contract with a charter school governing board to operate a charter school must apply to the CSOB. The application must include a strategic plan for such contracting; a performance framework for use in supervising and evaluating charter schools; an assurance that the organization or consortium will ensure accountability and transparency on the part of the governing boards with which it contracts; a plan, including corrective action strategies, designed to improve a charter school, or close such a school, that fails to meet contractual performance standards; a description of the types of charter schools it is seeking to establish; information on its finances; and a plan for entering into additional contracts in order to replicate successful charter schools. The CSOB must approve or deny an application within 90 days.

The bill provides that the contract between an authorizing entity and the independent charter school's governing board must allow the former to charge the governing board a fee. The contract must also allow the charter school governing board to open additional charter schools if in DPI's most recent school accountability report, DPI placed the charter school governed by the contract in one of the top two performance categories, which are currently known as "exceeds expectations" and "significantly exceeds expectations." The bill makes this provision applicable to existing contracts with independent charter schools as well.

The bill allows a charter school contract to provide for more than one charter school, and allows a charter school governing board to enter into more than one contract. The bill allows a school board to prohibit a pupil who resides in the school district from attending an independent charter school unless the school district's enrollment is at least 4,000 and at least two schools in the school district were in one of the bottom two performance categories, which are currently known as "meets few expectations" and "fails to meet expectations" in DPI's most recent school report.

The bill requires that a charter school accept pupils at random if the capacity of the school is insufficient to accept all applicants. A charter school must, however, give preference in enrollment to pupils who were enrolled in the school in the previous school year and to siblings of pupils who are enrolled in the school. In addition, the bill allows a charter school to give preference in enrollment to children of the charter school's founders, governing board members, and full-time employees so long as the number of such children given preference constitutes no more than 10 percent of the school's enrollment.

The bill requires each charter school authorizer to submit an annual report to the legislature and DPI that includes the following:

1. An identification of each charter school under contract with it and each charter school that had its contract nonrenewed or revoked or that closed.

2. The academic and financial performance of each charter school.
3. Its operating costs, detailed in an audited financial statement.
4. The services it provided to the charter schools under contract with it.

The bill directs each nonprofit organization or consortium that has been approved by the CSOB to contract with a charter school operator annually to submit an identical report to the CSOB.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

FOR 2015-2017 BUDGET — NOT READY FOR INTRODUCTION

1 **AN ACT ...; relating to:** the budget.

Analysis by the Legislative Reference Bureau
EDUCATION

PRIMARY AND SECONDARY EDUCATION

Under current law, a school board may enter into a contract with a person to establish a charter school, which operates with fewer constraints than traditional public schools. Current law also permits UW–Milwaukee, UW–Parkside, the Milwaukee Area Technical College, and the city of Milwaukee to operate charter schools (independent charter schools) directly or to contract for the operation of such charter schools. Subject to certain exceptions, only pupils who reside in the school district in which an independent charter school is located may attend the charter school.

This bill creates the Charter School Oversight Board (CSOB), attached to DPI, and authorizes it to approve nonprofit, nonsectarian organizations, or consortia of such organizations, to contract with persons to operate independent charter schools. The CSOB consists of the state superintendent of public instruction and ten other members. Of the latter members, two are appointed by the state superintendent, two are appointed by the governor, and six by the leaders in the senate and assembly. The bill prohibits the CSOB from promulgating administrative rules and provides that any policy or standard adopted by the CSOB is exempt from the rule-making process.

For any charter school established on or after the bill's effective date, the bill eliminates the authority of the entities specified above, and of any approved

nonprofit organization, to establish an independent charter school directly. Under the bill, a charter school may be established only by contract and must be operated by a charter school governing board, although an existing independent charter school authorizer may continue to operate a charter school itself if the school is established before the effective date of this bill. The bill removes the restrictions that limit who may attend an independent charter school.

A nonprofit, nonsectarian organization or consortium of such organizations that wishes to contract with a charter school governing board to operate a charter school must apply to the CSOB. The application must include a strategic plan for such contracting; a performance framework for use in supervising and evaluating charter schools; an assurance that the organization or consortium will ensure accountability and transparency on the part of the governing boards with which it contracts; a plan, including corrective action strategies, designed to improve a charter school, or close such a school, that fails to meet contractual performance standards; a description of the types of charter schools it is seeking to establish; information on its finances; and a plan for entering into additional contracts in order to replicate successful charter schools. The CSOB must approve or deny an application within 90 days.

The bill provides that the contract between an authorizing entity and the independent charter school's governing board must allow the former to charge the governing board a fee. The contract must also allow the charter school governing board to open additional charter schools if in DPI's most recent school accountability report, DPI placed the charter school governed by the contract in one of the top two performance categories, which are currently known as "exceeds expectations" and "significantly exceeds expectations." The bill makes this provision applicable to existing contracts with independent charter schools as well.

The bill allows a charter school contract to provide for more than one charter school, and allows a charter school governing board to enter into more than one contract. The bill allows a school board to prohibit a pupil who resides in the school district from attending an independent charter school unless the school district's enrollment is at least 4,000 and at least two schools in the school district were in one of the bottom two performance categories, which are currently known as "meets few expectations" and "fails to meet expectations" in DPI's most recent school report.

The bill requires that a charter school accept pupils at random if the capacity of the school is insufficient to accept all applicants. A charter school must, however, give preference in enrollment to pupils who were enrolled in the school in the previous school year and to siblings of pupils who are enrolled in the school. In addition, the bill allows a charter school to give preference in enrollment to children of the charter school's founders, governing board members, and full-time employees so long as the number of such children given preference constitutes no more than 10 percent of the school's enrollment.

The bill requires each charter school authorizer to submit an annual report to the legislature and DPI that includes the following:

1. An identification of each charter school under contract with it and each charter school that had its contract nonrenewed or revoked or that closed.

2. The academic and financial performance of each charter school.
3. Its operating costs, detailed in an audited financial statement.
4. The services it provided to the charter schools under contract with it.

The bill directs each nonprofit organization or consortium that has been approved by the CSOB to contract with a charter school operator annually to submit an identical report to the CSOB.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
