WISCONSIN'S ECONOMIC DEVELOPMENT NETWORK IS BETTER *IN FORCE*

Imagine a shared online tool that allows economic development practitioners across Wisconsin access to powerful resources relating to business and workforce development opportunities. With subsidized group pricing, the Wisconsin Economic Development Corporation (WEDC) brings the power of the world's leading customer relationship management (CRM) system—Salesforce.com—to economic developers throughout the state. We call it the **In Force Network**—a name that underscores the platform's combined collaborative and operational benefits.

WHAT IS THE IN FORCE NETWORK?

The In Force Network makes available a customized CRM system tailored to specifically-defined needs of Wisconsin's economic development extended enterprise. It has been developed with input from economic developers like you who have stressed the need for a solution that is standardized but also affordable. This system also respects the desire of network participants to preserve their confidential business and operational data.

The benefits of the In Force Network include streamlined services; reduced duplication of effort and expense; enhanced measurement capabilities; and shared information and resources with your extended enterprise economic development and workforce development partners.

HOW DO I JOIN THE IN FORCE NETWORK?

Through group pricing and investment funding on WEDC's part, In Force Network participation is available to extended enterprise partners for an annual fee of only \$500 per user per organization. As a member of the In Force Network you will benefit from the following shared CRM features:

- Business Retention and Expansion
- Investor Relations
- Event Management
- Information Sharing
- Outreach
- Collaboration
- Integration with workforce Skills Wisconsin platform
- Integration with WEDC Salesforce.com platform

CREATING A MOVEMENT

The In Force Network is not so much a product as it is a vision of how to maximize economic and workforce development effectiveness throughout the state. We believe this tool will help all economic developers reach their goals by providing the information and resources they need to succeed. And because the value of the network will be defined by its participation, we encourage you to join.

For more information on the In Force Network, contact:

FOR 2015-2017 BUDGET – NOT READY FOR INTRODUCTION

Don't Gen

1 **AN ACT ...; relating to:** the budget.

Analysis by the Legislative Reference Bureau

Under current law, all records of WEDC are public records, except records relating to pending grants, loans, or economic development projects that, in the opinion of WEDC, must remain confidential to protect the competitive nature of the grant, loan, or project. Also, under current law, WEDC maintains a customer relationship management (CRM) system called the “In Force Network” for economic development purposes.

X This bill creates an additional exception to the public records law for information on the In Force Network or other similar CRM system maintained by WEDC, unless the information was published to the In Force Network or other CRM system by WEDC or another economic development organization.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

2 **SECTION 1.** 238.08 of the statutes is renumbered 238.08 (intro.) and amended
