1 AN ACT . . .; relating to: the budget.

Analysis by the Legislative Reference Bureau

MILITARY AFFAIRS

EMERGENCY MANAGEMENT

Under current law, DMA administers Wisconsin's emergency management system through its Division of Emergency Management, commonly referred to as "Wisconsin Emergency Management" (WEM). The purpose of the system is to prepare the state and its subdivisions and American Indian tribes to plan for, respond to, recover from, and mitigate emergencies resulting from enemy action and natural or human-caused disasters. WEM is headed by an administrator appointed by the governor. Also, under current law, the Wisconsin Constitution requires the legislature to take measures to ensure the continuity of government operations during certain disasters resulting from enemy action.

This bill requires DOA to consult with the administrator of WEM to establish and administer a program to ensure the continuity of government operations during a disaster. Under that program, DOA must establish and administer the implementation of a plan for the continuity of government operations during a disaster for each agency or other body in the executive branch of state government. The bill authorizes DOA to delegate the responsibility to establish and implement a continuity of government operations plan to any agency with respect to that agency's plan.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1 **SECTION 1.** 16.20 of the statutes is created to read:

2 **16.20 Continuity of government operations.** (1) **DEFINITIONS.** In this
3 section:

4 (a) “Disaster” has the meaning given in s. 323.02 (6).

5 (b) “State agency” means any office, commission, board, department, or
6 independent agency in the executive branch of state government.

7 **(2) CONTINUITY OF GOVERNMENT OPERATIONS DURING A DISASTER.** (a) In
8 consultation with the administrator of the division of emergency management, the
9 department shall establish and administer a program to ensure the continuity of
10 state government operations during a disaster.

11 (b) Except as provided in sub. (3), under the program established under par. (a),
12 the department shall establish, and periodically update, for each state agency a plan
13 for the continuity of government operations in that state agency during a disaster.
14 The department shall administer each state agency’s implementation of the plan
15 established under this paragraph.

16 (c) The department shall promulgate rules necessary to implement this
17 subsection.

18 **(3) DELEGATION TO STATE AGENCIES.** The department may delegate to any state
19 agency the department’s authority under sub. (2) (b) with respect to that state
20 agency.

1 (4) ASSESSMENTS TO STATE AGENCIES. The department shall annually assess to
2 each state agency an amount equal to that state agency's proportionate share of the
3 department's annual costs incurred under this section in accordance with a method
4 of apportionment determined by the department.

5 **SECTION 2.** 20.505 (1) (ki) of the statutes is created to read:

6 20.505 (1) (ki) *Continuity of government operations program.* The amounts in
7 the schedule to establish and administer the continuity of government operations
8 program under s. 16.20. All moneys received from assessments under s. 16.20 (4)
9 shall be credited to this appropriation account.

reflected in the revised schedule in s. 20.005, stats.

I need a small change to this draft. The Office of Government Continuity would have its staff and operations funded out of the existing s. 20.505(1)(ka) rather than creating a new appropriation. Let me know if you have any further questions.

Michael-

A few other things:

1. In Section 1, in the language created as 16.20(2)(b), would we be able to adjust that language to allow for DOA to work in cooperation with agencies on their continuity of government operations?
2. In Section 1, we wouldn't want the language created as 16.20(2)(c) that allows the promulgation of rules.
3. Is it possible to have this office created as an entity under s. 15.103, similar to the division of legal services, for instance. But as an "office" rather than a division. *COOP SECTION*
4. This is more a question that could direct further drafting. But, most of this draft discusses Continuity of Government (COG). The office would also work with agencies regarding Continuity of Operations plans (COOP). Does this draft cover all COOP and COG items? Or, does the COOP part of that need to be separately discussed? *→ YES*

Mike-

I haven't had a chance to review the most recent on the Office of Government Continuity. But, I did want to share with you the responses on the questions you asked and I just now received a response on. Attached is a response from DOA on the first question. On the 2nd question, relating to Rule 202.24 in Administrative Code, the department says it can be disregarded as it was added by mistake. Not sure if that will change anything in how it is drafted or not.

Cory: This budget draft is my responsibility. I have a couple of initial questions regarding the legal citations in the attached document.

Under item 1, the document cites "Sections 16 and 34" of the Wisconsin Constitution. The reference to Section 34 appears to be Article IV, Section 34, "continuity of civil government." I haven't determined which Article of the constitution is being referenced for "Section 16." Can you help me out with that? A key word search didn't turn up anything.

Also, the document cites "Rule 202.24" in the Wisconsin Administrative Code. Can you tell me the part of the administrative code in which that rule appears? It is not DOA (ADM) or DMA, which does not appear to have any rules. Again, a key word search did not turn up anything. If you provide the text of the rule, that would work too.

Thanks.

EMERGENCY MANAGEMENT

Under current law, DMA administers Wisconsin's emergency management system through its Division of Emergency Management, commonly referred to as "Wisconsin Emergency Management" (WEM). The purpose of the system is to prepare the state and its subdivisions and American Indian tribes to plan for, respond to, recover from, and mitigate emergencies resulting from enemy action and natural or human-caused disasters. WEM is headed by an administrator appointed by the governor. Also, under current law, the Wisconsin Constitution requires the legislature to take measures to ensure the continuity of government operations during certain disasters resulting from enemy action.

This bill creates an Office of Continuity of Government (office) in DOA. The bill requires the office to consult with the administrator of WEM to establish and administer a program to ensure the continuity of government operations during a disaster. Under that program, the office must establish and cooperate with each state agency and administer the implementation of a plan for the continuity of government operations during a disaster for each agency or other body in the executive branch of state government. The bill authorizes the office to delegate the

responsibility to establish and implement a continuity of government operations plan to any state agency with respect to that agency's plan.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
