Current law authorizes the state to incur public debt for certain conservation activities under the Warren Knowles-Gaylord Nelson Stewardship 2000 Program (stewardship program), which is administered by DNR. The state may incur this debt to acquire land for the state for conservation purposes and for property development activities and may award grants or state aid to certain local governmental units and nonprofit conservation organizations to acquire lands for these purposes.

The stewardship program consists of five subprograms one of which is the property development and local assistance subprogram. Current law requires DNR to set aside \$7,000,000 in fiscal year 2014-15 and \$7,000,000 in fiscal year 2015-16 under the property development and local assistance subprogram to be obligated for the purpose of infrastructure improvements to the Kettle Moraine Springs fish hatchery.

This bill requires DNR to set aside additional amounts under the property development and local assistance subprogram to be obligated for infrastructure improvements to the Kettle Moraine Springs fish hatchery. Under the bill, DNR is required to set aside an additional \$7,000,000 in fiscal year 2016-17 and an additional \$7,000,000 in fiscal year 2017-2018 for this purpose.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

1 **SECTION 1.** 23.0917 (4) (cm) 4. of the statutes is amended to read:

2 23.0917 (4) (cm) 4. Infrastructure improvements to the Kettle Moraine Springs

This draft requires DNR to obligate additional funding under the stewardship program for the purpose of infrastructure improvements to the Kettle Moraine Springs fish hatchery. Please note that I have also advanced the date in current law under s. 23.0917 (4) (cm) 4. by ^{two} 2 years so that no stewardship funding for the fish hatchery improvements is authorized after June 30, 2019 (instead of June 30, 2017 as in current law). Also, I have advanced the date under s. 23.1987 (1) by ^{two} 2 years so that the exemption to the restrictions in current law with respect to unused bonding authority applies to amounts obligated for the fish hatchery project before July 1, 2019 (instead of July 1, 2017 as in current law). Are these changes consistent with your intent? *
