WISCONSIN DEPARTMENT OF ADMINISTRATION
2015-17 Biennial Budget
Transfer of Wisconsin Federal Surplus Property Program
White Paper

Transfer authority for the Wisconsin Federal Surplus Property Program from the Department of Administration to the Department of Military Affairs

Issue

The Wisconsin Federal Surplus Property Program acquires federal surplus property for Wisconsin public organizations (donees). The Department oversees this Program per guidelines established by the General Service Administration (GSA) and in accordance with the DOA/GSA Wisconsin Federal Property Program State Plan of Operation. DOA contracted with the Wisconsin Technical College System Foundation (Foundation) to provide property screening, transfer and storage for the Program in 1986.

For the period of July 1, 2011 through June 30, 2014, 89 donees obtained property from the Program for a total cost of \$954,589.06. The majority of the donees were local governments, school districts, and law enforcement agencies. During that same period, DOC, DNR, UW-Madison, UW-Parkside, UW-Extension, Capitol Police and State Fair Park obtained property through the program.

The Department does not attribute costs to the program, and the Foundation is not paid by the Department for their administration of the program. A service fee of 5% is paid by an entity acquiring property to the Foundation, and then paid by the Foundation to the Department. The Department has utilized this revenue to pay down an advance made to the Foundation to rectify a financial negative balance. The Foundation continues to operate the program at a loss. For the period ending June 30, 2013, expenditures exceeded revenue by \$17,590, and the total deficit of the program was \$1,524,848.

The Department formerly administered the 1033 Federal Military Surplus Property program, which provides for the availability and acquisition of federal military property by law enforcement entities. This program was funded by s. 20.505 (1) (fo), Stats., with \$95,200 in GPR funding, and s. 20.505 (1) (kg), Stats., which was funded by the optional transfer of revenue from Department of Justice. The GPR funding provided for the payment of a contract with the Foundation. In May 2014, the 1033 program and the associated appropriations were transferred to the Department of Military Affairs via a 13.10 request.

The Foundation has notified the Department that they will be ending the contract for the administration of the Federal Property Surplus program. The Foundation has also notified the Department of Military Affairs that they are also ending the contract for the administration of the 1033 Military Federal Surplus Property Program.

The Foundation currently has a warehouse/storage yard where prospective buyers can inspect and select property. By June 30, 2015 the warehouse will be closed and the program will be converted to a paper screening/direct transfer program through the following process/timeline:

- Beginning July 1, 2014, the Foundation will screen only property that is requested by and transferred directly to Donees and for which Donees agree to pay for transportation and service fees.
- Donees may continue to select property already in the warehouse or storage yard inventory from July 1, 2014 to July 1, 2015.
- Remaining property will be sold at final auction and cleared from the warehouse by September 30, 2015.
- The Program and associated records will be transferred to the Department by July 1, 2016

unless DOA finds another entity to manage the paper screening/direct transfer portion of the program.

Costs in 2015-2017

The Department does not attribute costs to the program. A portion of an existing manager's time provides for workload required of the Department. However, the Department does not have expenditure or position authority specifically associated with the Program. Therefore, the transfer of the Program would not include the transfer of expenditure or position authority.

Costs to administer the program would need to be determined. The operating costs of the Foundation have resulted in an annual and growing deficit for the program. Transferring from a warehouse to a catalogue method of administration, and assessing if the staffing and other administrative costs of the Foundation are necessary to the operation of the program would need to be determined.

The Program is partially funded by fees from each participating donee and through the public sale of residual property. Donees must pay a 5% surcharge fee plus packing, crating, handling and transportation charges for each item they receive.

Reallocation Opportunities

This proposal would transfer, or reallocate, the Federal Surplus Property Program to the Department of Military Affairs, which is responsible for the administration of the 1033 Military Federal Surplus Property Program. Administrative efficiencies can be realized from a singular point of administration for both programs.

Long-Term Costs

Based upon a review of FY13 revenue, the Foundation estimates the Federal Program could generate revenues of approximately \$200,000 per year under the new paper screening/direct transfer process.

The only ongoing cost is that of a staff position to manage the Federal Property Program. All other program costs (packing, crating, handling and transportation) will continue to be paid directly by the donees.

Positions

This proposal does not involve the transfer of FTE positions from the Department. By July 1, 2016, the Foundation will transfer 1 FTE to DMA to manage the 1033 Program. DMA may elect to have that FTE position also manage the Federal Program.

Statutory Language

The program is

16.98 Federal resource acquisition.

16.98(1) (1) The department shall engage in such activities as the secretary deems necessary to ensure the maximum utilization of federal resources by state agencies and institutions and other eligible organizations and units of government, including community development corporations as defined in s. 234.94 (2). The department shall acquire excess and surplus real and personal property at such cost to the recipient as is necessary to amortize expenditures for transportation, packing, crating, handling and program overhead, except that the department may

transfer any excess or surplus personal property to the department of tourism, upon request of the department of tourism, at no cost, subject to any limitation or restriction imposed by federal law.

16.98(2) (2) The department may, in accordance with federal law, operate warehouses and otherwise provide for the temporary storage of property being transferred.

16.98(3) (3) All proceeds from the sale of land, buildings, supplies and equipment received under this section shall be credited to the appropriation under s. 20.505 (1) (im) or (ka). Such proceeds may be used for the purchase of lands and buildings or for construction or improvement of buildings for the purpose of storing and handling excess and surplus property.

16.98(4) (4) From the appropriations under s. 20.505 (1) (fo) and (kg), the department may provide grants to any organization with which the department contracts to operate the program under sub. (1).

History: 1971 c. 215; 1977 c. 29; 1979 c. 34 s. 2102 (1) (b), (c); 1983 a. 106; 1987 a. 27, 399; 1997 a. 27; 1999 a. 9; 2011 a. 32.

Upon program transfer, DOA should request changes to 16.98 to designate DMA as the department responsible for the program.

Impact of Denial

If the Program is not transferred to DMA, DOA would need to either hire 1 FTE to provide paper screening and direct transfer services or contract with DMA to have the FTE managing the 1033 Program also manage the Federal Property Program.

If the Program transfer is not approved and DOA does not want to continue managing the Program, DOA would need to eliminate the Program and revise 16.98 accordingly.

Hi Rick,

The decision on the federal surplus property program was to repeal the program rather than transfer it to DMA.

Please let me know if you encounter any issues with this revision.

Thanks!
